International Public Notice: Chatham House Smoke

Notice to Principals is Notice to Agents; Notice to Agents is Notice to Principals.

Susan Kokinda's only problem is that she doesn't go back far enough in history to dig out the root of the dandelion, but she makes a good start:

As we just signaled to Mexico yesterday, the "Americans" don't owe them anything, but Britain and the US Corp do.

We have to keep track of the Slimy Limeys so that they don't hang their debts on Third Parties who have already been victimized enough.

Britain is the Enemy and not just the Enemy at our gates, but the Enemy of virtually every other nation on Earth.

Britain never gave up its colonial empire, it simply changed the jurisdiction it was operating in — a matter of putting on a blue Territorial uniform and using Admiralty Law instead of Land Law.

Nobody caught on. Things appeared to go on as before. And here we all are, 160 years later, facing the biggest con game and racketeering scheme in human history, all brought to us by.... the Brits.

There's a reason that Britain has been the fulcrum and focus point in two World Wars: Britain caused both of them, and wants to start a third.

Why?

They start the fight, they finance both sides of the fight, then they collect "war" reparations from the winner. They don't care about the loss of human life, because they aren't really British, either.

It's an odd national-level reprise of the scandals rocking the Royal Family.

Most of us only have to wonder who our Father is. The Royals, as it turns out, not only have that traditional worry, but have to worry about who their Mother is, too.

For those who don't know, Meghan Markle tried to pass off two totally surrogate children as Royal heirs, which set off a rash of DNA tests.... and, true to form, nobody is who they say they are.

Even Prince Philip appears to have fathered a Royal Bastard and posthumously granted his own half-Austrian grandson (masquerading as Prince Edward's son) his personal estate and heirship. And Philip was the only true Royal in the house.

In the same way, they have a wife-swapping government. The British Government is actually a German/Continental Government, not British, just as the U.S. Government is British, not American.

This morning we awakened to the emissaries of Chatham House, the "British" Think Tank, trying to position Donald Trump as an irresponsible madman and "America" as a threat to European security.

Trump's sin is that he has recognized the true Enemy of Humanity and is making a break with Europe and refusing to continue an arrangement that would leave this country paying for 96% of European Defense costs — a situation that has persisted since the Second World War.

Trump isn't a madman for doing this, but he is mad in the sense of being angry. He now sees how the British Government — or what substituted itself for the British Government — has deceived and bullied and defrauded this country, enslaved its people using "lawfare" and operated what appeared to be our government as a storefront, just as the same parties gained control of the Roman Catholic Church and used it as a storefront for infamy.

He also discovered the Letters of Marque that the British Monarch issued to the City of London and its Bar Associations in 1829, allowing them to prey upon the American people. This is basically a Royal License legalizing inland piracy against Americans, at the same time that they were under contract to protect us on the High Seas and Navigable Inland Waterways.

Pope Francis removed similar Letters of Marque issued by the Vatican. That occurred in 2013. Up to that point, both Federal Service Vendors had been treating this country as a giant piece of meat to be carved up and used as chattel for their commercial and municipal corporation debts.

The same parties did the same thing to the British Isles, Canada, Australia, Western Europe, Japan, the Philippines.... and every other country they gained influence over. It's a form of violent colonialism that we have dubbed "Corporate Feudalism" executed under color of law and conditions of secrecy and deceit.

The chief enforcement mechanism that ensured their success was the silent weaponization of the legal system and in this country, the so-called "district courts" operated under False Presumptions in the States of the Union. That's why we have required that these "district" courts be removed from the States of the Union and restricted to the District of Columbia.

Donald Trump has used his Office as Commander-in-Chief, a Naval Office, to try to bring an end to 160 years of gross criminality and breach of trust masquerading as a justice system. As the name "District Court" suggests, these are courts of the District of Columbia that have operated in the States of the Union and been used to illegally confiscate American assets and to terrorize and subject the American people.

The same basic system of racketeering, misrepresentation, impersonation of the victims, and imposition of foreign law using courts and court personnel as undisclosed Foreign Agents, has served to practice personage and barratry against helpless civilian populations throughout the world.

This situation has prompted the Federal Postal Court to issue Orders to arrest employees of the court system, Bar Attorneys and Judges, Clerks and Police hired by the courts to enforce their decrees, and

authorized their internment in FEMA camps:

Under Admiralty Law, the same persons who have indicted Donald Trump and latched upon his property are facing charges for Treason. Under Postal Law, they have violated numerous fundamental international laws and codes.

This explains why they are so hot to trot to impeach Trump, seize upon his assets, and use their “lawfare” system against him.

This includes members of the U.S. and United States Congresses, employees of the Department of Justice/DOJ, and members of the International and American Bar Associations, and members of Agencies and Police Forces employed by them as enforcers of this racketeering system.

The Letters of Marque authorized by British Monarchs almost two centuries ago have finally been withdrawn and the entire scheme in gross breach of trust has been exposed.

This institutionalized racketeering scheme has resulted in the illegal confiscation of trillions of dollars-worth of assets and labor, and the peonage and enslavement of millions of people worldwide.

Donald Trump is only one of the most recent and famous victims of this criminal legal cartel run by the Inner City of London.

So, Donald Trump has them for treason and they have him (they think) for what they are describing as fraud; true to form, they are blaming the victim for the crimes they are committing themselves.

What they are trying to spawn is another “civil war” in which government bureaucracies take up arms against each other, but we are not allowing that.

Both these Federal Service Vendors are our employees, and ultimately, they both belong to the Pope.

We do not grant our permission for our federal employees to take up arms in any kind of mercenary conflict disguised as a “war” on our shores.

We do authorize the deployment of military and naval forces to conduct the immediate arrest and internment of all undeclared Foreign Agents, Territorial and Municipal, as criminals engaged in racketeering, fraud, personage, barratry, and unlawful conversion.

They are all being arrested initially under 18 USC 1001, popularly known as the Federal False Statements Statute. This is because they have used fraudulent conveyance of language to commit property crimes and promote both peonage and enslavement.

These and even more serious crimes of fraud and misrepresentation resulting in crimes of state have been routinely committed by members of these foreign courts acting under False Legal Presumptions.

Though Municipal Employees will argue that Territorial Code does not apply to them, The Constitution of the United States — their Service Contract — does. So do the general principles and agreed-upon conventions of international law, including postal and commercial law, which their operations have violated.

These are not political matters. They have nothing to do with race or religion. They are simply crimes against humanity by commercial and municipal corporations and their personnel, all seeking coercive

power and unjust enrichment.

The British Municipal Government, which is ultimately vested in the EU Parliament and serves Continental European interests, not British interests, has been draining the British Union and the Anglican Church dry for generations.

Keir Starmer's treason against the interests of the British people and the Constitutional Monarchy and against the results of Brexit are "legal" in the foreign jurisdiction of the air, where he found himself by virtue of the same fraudulent conveyances of language and false appointments discussed above, resulting in the same situation that Donald Trump is in: facing treason in one jurisdiction, and fraud charges in another.

Given the options, we consider that Donald Trump made the wiser choice, even though it put his own property assets at risk. Being condemned by criminals means exoneration by the righteous.

This period of history is drawing swiftly to an end, amid chaos in which identities, roles, and jurisdictions have been deliberately misrepresented, blurred, and confused by the Masters of Deceit.

Chatham House's attempt to identify "the Americans" and Donald Trump in particular as a "threat" to European security, has been duly noted; we find this particularly obnoxious because Chatham House, pretending to be a British Institution, is representing the same EU criminals who are responsible for enslaving generations of British people, denigrating them, defrauding them, and denying them the guarantees and protections that they are contractually owed by these same Perpetrators.

This misrepresentation of the victim as the threat, is typical of the diabolical lies used to promote and protect institutionalized fraud and injustice, enforce non-consensual citizenship obligations, and promote unjust enrichment via illegal and unlawful asset seizures.

As things stand, hundreds of millions of innocent people all over the world have been surreptitiously coerced into peonage and enslavement rackets misrepresented as citizenship obligations — and this has gone on for six generations.

Chatham House needs to blow its own smoke up its own rump; nobody is deceived anymore, and anyone caught supporting, aiding, or abetting the Undeclared Foreign Agents involved in the Great Fraud will find themselves in the position of being accomplices to the most virulent, longest lasting, and most damaging organized crime spree in history.

These crimes against humanity as a whole have been conceptualized by the Roman Curia, implemented by the British Crown, and enforced by the Inner City of London.

However, this brief recitation is not sufficient, because the Roman Catholic Church was used as a storefront by the Roman Curia, the British Crown was used as a storefront by the European Union — and the Inner City of London acted as both the Servant and the Master.

Before his death, Pope Francis admitted that the entire Social Pyramid Scheme and the use of corporations to impersonate people was adopted in the early 1200's because the Church needed a new Schtick and means to pay off its Crusade debts — and all the "legal fictions" created ever since, with the single exception of natural trusts, are void. They simply don't exist and never did.

Corporations are literally as fictional as Pippa Longstocking.

What remains are the natural trusts — the trusts we have with and in each other, the trusts we create

when we name living Guardians for our children, when we express our Will regarding ourselves and our assets, and when we knowingly name specific living trustees to act for us upon our absence, death, or permanent disability.

These simple trust agreements created between living men and women and living trustees (people not acting as officers of a court or elected officials of a government) supersede any contract or treaty or law existing in the realm of trade or commerce.

This is why the announcement and pronouncement of the Federal Postal Court against the Undeclared Foreign Agents (that is, primarily foreign court officers and agents) included prohibitions against Powers of Attorney.

There can be no Powers of Attorney applicable to a living man.

Living men retain their identity and their agency, which is an inviolable law of nature. They have the right to contract and the right to refuse contract as well; it is this latter Point of Law which has finally been sharpened and driven into the heart of the beast made of paper and greed.

We are getting down to the gut level of an ancient and horribly destructive Fraud Scheme, one that has been used for generations to purloin the wealth and steal the productivity of millions of innocent people for the benefit of corrupt institutions and guilty so-called elites.

“But nothing shall be hidden....that will not come to light.”

Donald Trump has now endured the injustice and danger suffered by every other American, every Brit, every Aussie, every Frenchman, every German, every Japanese, every Filipino, every Libyan, every Native American — he has become a victim of the corrupt “legal” system, has lost his beautiful home and his business enterprises, but take heart. He has saved his soul.

The corrupt legal system and those promoting it, are being torn apart and facing justice at last, and in days to come, we shall all know the blessings of lawfulness and peace again for the first time in six generations.
