## International Public Notice

The United States of America —  
Federation of States

It's not just African leaders being targeted by "western powers".

These "western powers" aren't even governments. They are commercial corporations masquerading as governments.

Don't believe it?

Look at how Lord Pirbright (a Rothschild banker) lobbied Parliament to appoint Cecil Rhodes' British South Africa Company as the government of South Africa.

Then read up on how Rhodes asset-stripped and brutally suppressed any national government in South Africa. Read about the murders and the destruction and the racial prejudice that South Africa suffered under the British South Africa Company. Contemplate the peace and wealth that South Africans lost because of Britain.

India, too.

And our country, too.

They simply used that same model, using a commercial corporation to secretly replace national governments, in many other countries.

How? By naming their filthy, dirty, criminal commercial corporations after the countries targeted, and neglecting to add that telltale little word: "Incorporated".

Look at how many corporations in how many foreign countries are called some version of "United States" or "United States of America" or "The United States" or "The United States of America" or "USA" or "US" or "UNITED STATES" or "UNITED STATES OF AMERICA".... ?

Pull up the Companies House records in Britain. And the Scottish records, particularly.

Pull up the records of the State of Delaware, Secretary of State, and see how many dubiously-named corporations — including the Internal Revenue Service, Inc., came ashore in Delaware.

Why do you think we've been telling you that the United States, Inc. isn't the name of our country, The United States?

Why do you think we've been telling you that The United States of America, Inc. isn't the name of our Federation of States, The United States of America?

England, Great Britain, and the UK — why so many names? Because England is a country, Great Britain is a company, and the UK is a corporation. And it's all a fraud, a deliberate and purposeful deceit used to replace the national government of England with filthy, dirty, criminal commercial corporations, bent on commandeering national resources for private gain.

Filthy. Dirty. Criminal.

Each country impacted by this criminal enterprise has suffered their version of the Raj in India. Every

country impacted has suffered war, decimation of their population, stripping of their natural resources, and heavy, oppressive surveillance, taxation, and coercion of the population.

This country, The United States, has additionally been used as their storefront and pirate base— and scapegoat.

Our soldiers and sailors haven't known that they were serving as cheap mercenaries, but they were.

Our people haven't known that they were being misdirected and commandeered and lied to by self-interested British Commercial Corporations and Roman Municipal Corporations acting under color of law, but they were.

Our people have not approved of assassinations and other crimes like this horrifying plot to kill Burkina Faso's young leader, Ibrahim Tarore:

Why?

Because they are coercive criminal organizations, bent on controlling other nations and they kill presidents that don't go along with their agenda.

John Kennedy was a victim, and Traore realistically knows he might be next.

It's time to give up your "normalcy beliefs" — life has not been normal, truthful, or decent in a very long time, because nothing has been lawful.

What pretends to be law now is in fact coercive manipulation and unjust enrichment — legalized theft and coercion under color of law.

Colonialism in a different jurisdiction of the law is still colonialism.

Let everyone on this planet be aware and take action now.
