The United States of America —  
Federation of States

Many people are now waking up and coming to the same conclusions from many different directions — a natural process when you reach a certain tipping point in finding the solution to a puzzle, and suddenly, everyone can see the overall pattern and starts adding pieces.

Those who produced the video linked below latched onto one of the easier proofs-by-observation: the difference in basic definitions between Bouvier's Dictionary (land) and Black's Dictionary (sea).

They seem to have interpreted this disparity in terms of a plot (inferred to be a plot by the Bar Associations) to change dictionaries instead of a change in jurisdiction that compelled the use of different forms of law and the use of different dictionaries, and different definitions, but they aren't far wrong.

There was a change in definitions, in dictionaries, and forms of law.

<https://rumble.com/v72dp1s-why-we-must-restore-the-republic-must-watch.....html>

This happened when a British Territorial "President" — Abraham Lincoln — of a British Crown Corporation calling itself "the United of America" (Incorporated) substituted itself for the lawful Government owed to this country.

Lincoln acted in Breach of Trust and under color of law to do this and it resulted in: (1) a British Territorial Subcontractor, literally a Service Vendor, commandeering our government apparatus; (2) unlawful conversion of the American Military into a private Mercenary Force and their illegal occupation of this country under pretense of war; (3)

change of the jurisdiction this "government" was operating in, and therefore, change of the dictionaries, definitions and forms of law.

The Perpetrators acted under conditions of strict secrecy and got away with it for 160 years before the Americans nailed it down.

The British Territorial Corporation operating under a very similar name was deliberately confused with and substituted for The United States of America — our unincorporated Federation of States.

To make the impersonation more flawless, certain Scottish Industrialists soon created "The United States of America" — Incorporated, so that on paper, their corporation literally appeared to be our Federation of States.

These two commercial corporations, "the United States of America"—Incorporated, which was Lincoln's

original corporation, and the Scottish version, "The United States of America" -Incorporated, conspired together, with Lincoln's original corporation controlling the delegated Powers we granted, and the Scottish Impersonator substituting itself and further purloining the identity and powers and assets of our unincorporated American Federation of States.

There have been many bankruptcies and reorganizations and false claims in commerce and all sorts of fraud, deceit, and violence since then, but this initial successful gambit provided the template for additional rounds of the same frauds and impersonations to be repeated with slightly different variations.

True to form, these paired commercial corporations and their managers see living people as commodities to be bought, sold, traded, controlled, manipulated, and owned. They privately refer to us as "livestock" and via purloined citizenship registrations of babies, they have contrived a means to "legalize" treating us as livestock.

Via this same citizenship registration process, they have obtained unconscionable contracts illegally and unlawfully converting Americans into British Territorial Subjects and subjecting Americans to their Territorial Law, which is limited to Maritime, Admiralty, and internal corporate Administrative law.

This malicious constructive fraud also allowed the Perpetrators to evade their contractual obligations owed under The Constitution of the United States of America. Only Americans are owed the Constitutional Guarantees; British Subjects are not.

This ruse also allowed the Perpetrators to inflict private gift, estate, and excise taxes on Americans. This, coupled with conversion of the court system and overall jurisdiction of "government" operations already noted, further allowed them to unlawfully confiscate American assets and unjustly enrich themselves under color of law.

In a nutshell, the nineteenth century Robber Barons and Captains of Industry figured out a way by which they could commandeer the powers of government without appearing to do so, and they could then use those powers of government to gain monopoly interests, rig commodity markets, carry on wars for profit, access national credit accounts for their private piggy banks, print fiat money using other people's assets as collateral, issue labor bonds against the value of other people's labor, use their private corporate tribunals to selectively punish their competitors, use the patent office to restrict competition, and so on.

So that's what they did and that's what they gained. Except that most of them have been dead for over a 100 years, they all deserved to be hanged. Perhaps we can hang them in effigy. Establish a glorious public latrine as the new Lincoln Memorial.

To be fair, there is evidence that Lincoln balked and tried to block the Great Fraud in the few days between Lee's Surrender and his own death; just like JFK, Lincoln called them out but failed to name names.

So that is what they have done, and it is all 100% criminal.

No issues of race, politics or religion. Just crime.

Unfortunately, America is not alone in being abused by this same confidence racket; the Perpetrators succeeded and so, were encouraged to apply the same template to country after country, using any means fair or foul.

Today's video shows you another piece of the puzzle and easy evidence in support of what we have been telling everyone since 1999.
