

# If You Are Going to Lie, Lie Big

## International Public Notice

July 29, 2025  
The United States of America —  
Federation of States

This enormous misrepresentation just came across our desks — purportedly under the authorship of Donald Trump, no less, claiming that "Q" was created on April Fool's Day

in 1860 and was the day when twenty Union Generals "placed" Abraham Lincoln into position to combat the Khazarian Mafia, who were the owners of 99% of the Southern Plantation Slaves.

This was obviously a Nineteenth Century April Fool's joke.

The "Q" stands for "Queen", as in QEII, or at that time, Queen Victoria.

"Q" has always — at least in recent memory and for the last two centuries — been shorthand for "Queen" and nothing else.

"Q" indicates men and women who are Tory Loyalists living and working here in this country under the constraints of International Treaties, The Constitution of the United States of America, and the Residence Act, acting for the benefit of their Queen, as all British Territorial U.S. Citizens are obligated — as British Subjects — to do.

We know this about "Q" and so should everyone else.

The lunacy of the proposed narrative is self-evident.

No one has ever been elected to the Public Office of President of the United States by twenty Union Generals, so if they admit that Lincoln was "put in place" by twenty Union (Jack) Generals, they also admit committing gross treason against our civilian government and the result is Gross Fraud in Breach of Trust.

If Mr. Lincoln couldn't stand for our Public Office (which we know he couldn't — Lincoln was a Bar Attorney and Bar Attorneys were already prohibited from serving in any public office of our American Government) — and stand for the correct Public Office, instead of passing off a private corporation office as a substitute, then Mr. Lincoln was a shill and a Liar participating in a deliberate treasonous deception against the Public Interest.

The vast population of Plantation Slaves were owned privately, as shown by all the extant records. Individual men proposed to own other individual men identified by name and physical characteristics. They were not owned by corporations or governments or conglomerates, which is their condition today.

Therefore it is impossible for anyone to say that the Khazarian Mafia or any other theoretical group owned 99% of the Plantation Slaves.

That only became a possibility AFTER the so-called Civil War, when the Southern Democrats in the British Territorial U.S. Congress created the Fourteenth Amendment to a deceptive and duplicitous Corporate Constitution.

They abolished slavery with the 13th Amendment and then recreated it and redefined it and institutionalized it with the 14th Amendment to this also phony document published in 1868 as a corporate charter for "The United States of America" — Incorporated, a Scottish Commercial Corporation that was used to siphon vast amounts of wealth out of this country in the years from 1865 to 1906 when the charade was finally discovered and stopped.

It was only AFTER the so-called Fourteenth Amendment was adopted as part of the Scottish Corporation Charter (a By-Law that didn't require ratification by the States of the Union and still isn't ratified by the States of the Union) that public slave ownership became possible, and the "public" being served was the citizenry of the British Territorial United States. Not the Americans.

The American Government had nothing to do with that filthy maneuver and didn't even participate in the so-called Civil War. We wanted to buy the slaves from their private owners and set them free. We wanted a peaceful resolution to the issue and our country would have benefited from it, if the "Union" as in "Union Jack" Generals had honored their duty to perform with due diligence under contract.

The bankruptcy of the Scottish Corporation ultimately resulted in the First World War, with "Great Britain" — a Company, not a country, being the Spoiler. This was followed up by another illegal and unlawful and immoral bankruptcy foisted off onto the American People and World War II was the result. Again, Britain played the Spoiler.

We are looking at a Third Round Repeat of this same lawless misrepresentation and illegal conscriptions and False Claims in Commerce to go along with it — all of which we return to the source with our compliments.

The next bit of information offered from "Q" was that on Christmas Eve 1963, a purported 77 "u.s." GENERALS — meaning what? Municipal Corporation Franchises belonging to British Territorials? —came together to make a Plan to Save the World.

According to this latest pronouncement, it has taken them 58 years to get organized and motivated enough to stop stealing and get ready to do what?

We could hope that they mean to fulfill their contractual obligations to the American People, but no, they are merely misleading everyone else, including the allied military forces, in another typical British Substitution Scheme.

Just as they came in after the actual fighting ended in 1865 and demanded under force that all the State Assemblies produce new "State" Constitutions, and imposed their British Territorial "States of States" as replacements for our American state-of-state organizations, they mean to pull another Fast One and substitute a British Territorial "Federal Republic" for the actual American Federal Republic we are owed.

This is not acceptable by any means. If the Generals involved hope to do anything good or provide any stable basis going forward, they have to cope with reality — and the reality is that Abraham Lincoln had no actual authority or Public Office to do any of the things he got away with.

It's all fraud, and in this comment from (Q) The Storm Rider (photo montage with captions below), they

admit it — apparently without knowing what they are admitting.

Fortunately for humanity, at the same time that the Generals were hatching their Plan, Grandmothers in Wisconsin were launching Rat Watch, a non-sectarian, non-religious, non-political enterprise staffed entirely by non-citizen, non-military, non-aligned and profoundly not-impressed civilians who saw the Kennedy Assassination as the Final Straw.

The Generals are part of the problem as things stand and show no interest in becoming part of the solution, probably because they have been kept ignorant their entire lives and think they are doing the right thing, or, alternatively, they have siphoned their share of the trillions missing from the "Defense" Budget and are trying to avoid a Come to Jesus Meeting with our Finance Auditors by creating a big Drama.

Either way, The Plan to launch a bogus and un-American Federal Republic and claim that they are "restoring" it, when the Brits never had a Republic to begin with, is really a grotesque and insulting fraud — one completely dependent on American ignorance of American history, and a failure on our part to object to their deceit.

But we hereby do object to this deceit and we do expose what they have been doing and saying — and admitting to the entire world.

Lincoln had no authority to declare war under any Federal Constitution. (Neither, for that matter, did FDR.) Read it and weep.

Lincoln had no authority to usurp upon nor substitute a British Territorial corporation office for our American Public Office via a similar names deceit and breach of trust.

Again, Bar Attorneys were explicitly prohibited from occupying any Public Office in the American Government effective 1819, so how was Lincoln, a Bar Attorney admitted to the Illinois Bar Association in 1834 purportedly occupying our Public Office?

He wasn't.

None of the Union (Jack) Generals had any right to trespass upon their employers and create such a humongous con game, then or now.

As a matter of international law, the Government of this country is owed to the People of our States of the Union (international jurisdictions) and the living people of our Union States (national jurisdiction).

Our for-hire Federal Subcontractors have nothing to say about the price of beans in China — or Los Angeles. They are supposed to be performing in "good faith" and under Constitutional Contract and nothing else. And they are all presumed to know better than to pretend much less enforce any other arrangement upon penalty of death. This is the essence of treason.

If the Generals want to play a positive role, they can begin by arresting the criminal elements that have waged commercial "war" against our people and other innocent living people on a global scale. They can demand a real audit and balancing of the books, which will reveal the existence of vast credit owed to the living people who have been paying the bills for corporations — like Microsoft, like Black Rock, like Amazon.

If the Generals are honest and care to look, they will discover that not only have the living people been illegally, unlawfully, and immorally subjected to the British Crown, but they have suffered both

indentured servitude and enslavement on the General's watch and while the Generals have been receiving their pay and the support of their defense budgets from the victim's pockets.

They will also discover that they, themselves, have been used as cheap mercenaries of the Queen and the entire corrupt and evil system that has given rise to this circumstance. They, too, have been cheated out of wealth and comfort, medical care and opportunities that they were owed — if only as part of their contracts as mercenaries

The soldiers who were "voluntarily" enlisted in World War II, for example, were owed shares in the Fortune 500 companies which were bought and paid for as part of their compensation, but then, deliberately withheld from them along with the freedom they fought for, by the banks and the corrupt politicians serving the bank's coercive powers.

The Generals no less than the American Public and the Public of every nation impacted by these venal commercial and municipal scams — need to wake up.

Commercial and Municipal Corporations are not entities entrusted with the responsibility for national governments for good reason.

The only true and viable national and international governments are vested in unincorporated entities that have the right to state immunity, public indemnity, and operational independence, including the right and responsibility to issue their own national currencies and actual money, meaning asset-backed money competent to make equitable exchanges.

As things now stand, the Americans, most Europeans, and the Japanese people, people of the Commonwealth, and the British homelands along with others who have been subjected to this criminal cabal — the Iraqis, the Libyans, and many others — are all owed vast amounts of prepaid credit.

This is credit created because they have provided actual goods and services in inequitable exchange for Federal Reserve "Notes" — that is, I.O.U.s.

This is directly observable and does not require further proof.

If the Generals have a brain left in their head, their Plan should not be to try to institutionalize another British Fraud. It should be an effort to return credit where credit is due, and fulfill their obligation and duty to protect the living people of this planet.

Here is what is being presented, ostensibly by "Q" as a reference for those of you following along:
