International Public Notice

Federation of States

Like us, these lawful and law-abiding people were defrauded by commercial corporations in the business of providing essential government services, and they were for a period of decades displaced from their rightful identity and role while the foreign corporations and local miscreants imposed a phony military protectorate and used it to evade their own contractual obligations owed to the living people of Terra Australis- a name and distinction which stands for the physically-defined land and soil of the Continent more generally known as Australia.

From a tiny handful of people, including Aboriginal Elders, the awakening of Terra Australis now includes all the various provinces and an ever-enlarging number of inheritors who have come home to the land and soil and declared their political allegiance to their own traditional self-governing, free and independent government of Terra Australis.

All contracts owed to the living people of Australia are reconveyed to the ownership of the Terra Australis government naturally occupying the jurisdiction of the lawful and the living, including all constitutional guarantees and commercial laws and trade agreements.

We are herein today reminded of the eternal vigilance required of us in our efforts to maintain a lawful assembly of equals to stand as inheritors and protectors of the land and soil we are heir to, the customs and traditions of all our living people, and the precious guarantees we are owed from all public persons and officials in our employment.

Welcome, Terra Australis!

We look forward to many years of peaceful and productive trade and communication among Pacific Rim neighbors and friends who have in common our English language and the principles of law and custom and justice which bind our people together in the best of times and in the worst of times, too.

Let the return of the lawful government of Terra Australis be celebrated and shared as good news for all living nations.
