The United States of America —
Federation of States

With respect to the Office of Commander in Chief, an unelected Naval Office, and the Office of the President of the United States and the Office of the President of the United States:

These are all foreign offices, appointed or elected, associated uniquely with Subcontracting Federal Agents established under The Constitution of the United States of America — a British Territorial entity, or The Constitution of the United States — a Holy Roman Empire entity.

They have no authority vested in them apart from the delegated authorities strictly enumerated and limited within the text of both these venerable documents and the underlying treaties.

There is no provision for any Commander in Chief to exercise a foreign British Territorial Naval Office on American soil, nor any permission allowing a Commander in Chief to abuse our Title IV Flag or the similarly named offices of a foreign corporation for purposes of duplicity and deceit.

This includes but is not limited to offices of the Scottish corporation dba "The United States of America" Incorporated (1868 - 1906), the Delaware Corporation doing business as "the United States of America" Incorporated (1921 - 1953) and the President of the "United States of America" LLC recently established in London.

The only authority vouchsafed to the Office of Commander in Chief appears in the Naval Treaties of Westminster, which allowed the British Monarch to act as the Trustee of American shipping on the High Seas (admiralty) and Navigable Inland Waterways (maritime commerce).

This naval office, Commander in Chief, like all offices established under the respective Constitutions, is strictly limited and exists under the good faith service provisions liberally established throughout both these service contracts known as The Constitution of the United States of America and The Constitution of the United States.

It does not apply generally to American military operations and cannot be construed as a lawful application of unlawful conversion of our armed forces to serve as private mercenary forces. The first fraud prevents the second.

Brief History of the Fraud.

Abraham Lincoln, an Esquire and Bar Attorney serving Queen Victoria, substituted his elected, foreign,

corporate office as “President of the United States of America (Incorporated)” - a British Territorial Corporation, for the actual American Federation office, “The President of The United States of America”.

In the ensuing melee caused by Lincoln’s unlawful and illegal actions promoting a mercenary war within the borders of the free, sovereign, and independent states, this fraud and deception was worsened and institutionalized along with unlawful conversion of our military forces into mercenary forces and imposition of the Lieber Code, also known as General 100, as a substitute for American Public Law.

These frauds against the American states and people were carried out by public employees receiving their paychecks from our largesse and bound by both commercial and private contracts to function in “good faith” and provide us and our states with “good faith service”.

This False Flag operation was aided and abetted by the British Government at all levels. White Hall, Westminster, and the Monarchy all participated to promote and prolong this circumstance, which left them and their assigned agents in de facto control of American manpower and resources without the knowledge or consent of the American people and without contract(s) or treaties allowing this.

Everything else that has happened, including the secretive and undisclosed “registration” of American babies as British Territorial U.S. Citizens has derived from this criminal Civil War Era change of government scheme, which was essentially a literal False Flag operation using our Title IV Flag to misrepresent our actual American Flag and Government.

The diabolical evil, breach of trust and contract, and the Bad Faith in commerce that this represents has been euphemistically referred to as the “special relationship” between the British Empire and its own Territorial Officers bilking the clueless Americans.

These same foreign interests have murdered, slandered, and mischaracterized the American Officers who have loyally brought forward the lawful, legal, and moral claims of the American Government, our states, and our people.

It’s time for the world to recognize what has been done to our country and many other countries by these fraud artists and the banks that have conspired with them in violation of national and international law.

It’s time for the American people to recognize that the Commander in Chief is a British Naval Officer who has no power vouchsafed to him on land.

Also time to realize that the American Federal Subcontractor doing business as “the United States” from 1787 to 1861, also known as the Federal Republic, was secretly taken over and run by these same British interests with no disclosure to the American Public. The actions of the British Territorial “Congress” on February 2nd 1871 made a False Claim on Abandonment absent disclosure, and took over the functions and assets of the American Federal Republic. They then converted these assets and placed them under the authority of a District of Columbia Municipal Corporation, dba the United States, Incorporated.

The games that have been played misusing our resources and our manpower would fill libraries, but it all comes down to this— Donald Trump is not the “President” of this country, and none of his predecessors all the way back to Lincoln have been either. His present claim to be Commander in Chief is contractually limited to the High Seas and Navigable Inland Waterways.

We, the American States of the Union have never authorized anything called “THE GREAT SEAL of THE UNITED STATES OF AMERICA”, which appeared on the “Declaration of Authority and Summons” that was issued by Mr. Trump pursuant to the meeting he called for Staff and Flag Officers in 2025.

Mr. Trump did not properly declare his authority or divulge the nature and limited jurisdiction of his office as “Commander in Chief” at that time or any other time. Just like his Predecessors, he is attempting to brazen it out and retain command over forces and influence over assets that have never rightfully belonged to any British or International interests whatsoever.

In 1980, then-British Territorial Corporation “President” Jimmy Carter turned over illegally constructed American BIRTH CERTIFICATES to the United Nations and made the United Nations the Trustees over these American “persons” merely presumed to be Municipal citizens of the United States.

When the Municipal UNITED STATES corporation went bankrupt, the actual owners and the actual American Government were again, bypassed and not consulted or even given any disclosure. It was like an ugly child’s game of No-See-Um, pretending that whatever and whoever exists outside the parameters of their game does not exist.

This goes back to their unsupportable aggravated identity theft practiced by registering American babies, first as British Territorial U.S. Citizens, and secondarily as Municipal (HRE) citizens of the United States.

This is what the thieves proposed without any degree of Public exposure or disclosure, much less any agreement, regarding “recoupment” of our signature authority, which thanks to their duplicity and fraud, we never individually lost:

<https://rosmediaplatform.is/video/427/the-recoupment-of-signature-credit-what-is-the-process-and-how-long-does-it-take>

They’ve simply been lying about Americans out of one side of their mouths, and failing to disclose the situation to the same Americans with the other. Bilking their employers. Bilking their Allies. Abusing and misusing their position of trust to encumber American manpower and resources to fight in endless undisclosed and illegal and immoral wars for profit.

See the invasions of Iraq, Afghanistan, Libya, and countless other examples.

And when we, the actual American People, stand up and declare our provenance and proper political standing and bring our States of the Union into Session to address these abuses, what do they do?

Look for someone to blame while they attempt to confuse the American Public some more by pretending to be the long-lost “American Republic” — our long lost Federal Republic, purportedly reborn under the

command of Donald Trump.

This simply isn't possible.

The American Federal Republic has never been Reconstructed and the Reconstruction Acts, still active, still on the books, still never accomplished, give ample testimony to this fact.

Actual Reconstruction requires that it be done by Americans, and thanks to false registration of American babies as British Territorial U.S. Citizens, there are hardly any Americans to be found.

We object to this registration process and all claims resulting from it, as a knowing and hostile constructive fraud accomplished without disclosure on American soil, and designed to disinherit Americans and alienate us from rights, guarantees, and exemptions we are owed.

Registration of the names of American babies first as British Subjects and later as Municipal ESTATE Corporations, was and is a deliberate fraud scheme promoted by agents of the British Crown and HRE Successors to Contract to unjustly enrich themselves and purloin coercive control over American assets and Americans they owe good faith service to.

As for the assets of the Federal Republic, they were returned by Operation of Law to the Delegators and Creators of the Federal Government Subcontractor established under The Constitution for the united States of America. This return should have been fully honored by the other Subcontractors, but was not.

The assets of our Federal Republic were never available to be claimed under Abandonment, as no full disclosure was ever provided to the American Public and as the actual Officers of the American Government, Clintwood Belcher among them, were physically abused and prevented from coming forward by the same evil British protagonists operating in deceit and Bad Faith and Breach of Trust from 1861 to today.

Now, Mr. Trump and his associates are attempting to force Americans to admit to or accept being British Territorial Subjects as a proviso to receive back their own purloined assets.

Americans are being given a choice — accept payment as British Subjects and access the private “Quantum Financial System” (QFS)

set up as another sole-source monopoly by the same Bad Actors — or waive your inheritance.

Americans are being told that this is the only option.

They are being told that they don't have to declare, record, or publish their actual political status choices.

But Americans do need to declare their political status as American state nationals/State Nationals, because they were individually contracted by the birth registration process, and the only way to “undo”

that individual registration no matter how fraudulent and undisclosed it was, is by equal action repudiating it.

As a thing is bound, so it is unbound.

Just as the registrations are “registered” on ledgers and in written documents, countering information must be recorded establishing the actual choice and intent of the Americans about their political status.

Failure to repudiate the British Crown claims leaves them subject to the British Monarch and condemns them to the status of British Territorial United States Citizens. It means that they lose the benefits and assets that are owed to them as Americans. It means that they are deemed to officially waive their American Infant Decedent Estates.

Americans are being “baited” to accept pennies on the dollar and coerced in a situation where only the QFS option is being disclosed. They are being cheated and defrauded out of what they are actually owed, and once again, Britain and British/European Commercial Interests are at the bottom of it, because Mr. Trump is still operating as an Undeclared British Territorial Naval Officer and his administration which is “offering” the QFS and its “settlement” is failing full disclosure to the American Public.

This is our Standing Order to all Americans in all positions of Government and Public Trust, to bring a quick end to this threat against the American people and the States of the Union and the well-being of billions of other people worldwide who could be similarly coerced and defrauded via failure to disclose.

Close this “official qfs redemption center” and any similar efforts down pending full disclosure to the American People and the rest of the world concerning the cost and loss and actual impact of accepting “settlement” via the QFS service:

This is our Earth, our country, our assets, our credit and our decision regarding our government and our sovereignty; we are owed the “good faith service” of every public employee — which includes full disclosure of risks, losses, options, and resulting alterations of political and social status.

We are the “free, sovereign, and independent states” claiming all rights, all privileges, all benefits, all exemptions, all treaties, all fully disclosed consensual contracts and all assets, including but not limited to our credit and intellectual property.

Like it or not, we are here — lawful inheritors of this country and every cubic center of Earth within the borders of our states. We are not British Subjects, territorial or otherwise; neither are we Municipal citizens of the United States. We are American State Nationals under our own definitions, quite apart from any subsequent Federal Code.

All Federal and franchise employees, agents, corporations, and elected officials are called upon in this hour and Ordered to provide full support, remedy, maintenance, restitution and full disclosure to the American Public and good faith service in support thereof.

We aren't preventing any actual British Subjects from throwing their lives and property away in support of their King, but neither are we surrendering any American to folly as a result of more deceit and non-disclosure.
