

Regarding Iran, Dear Mr. Trump

International Public Notice

June 18, 2025

The United States of America —
Federation of States

It has come to our attention that a franchise of your corporation, “the United States of America, Incorporated”, a British Crown Corporation, and a recent franchise calling itself “the State of Israel, Inc.” headquartered in Kensington Palace, has launched an unauthorized attack on the sovereign government of Iran.

This is an illegal act, and your parent company should be prepared for the damage claims, just as “the State of Israel, Inc.” should be prepared to suffer the consequences of its violent and unhappy actions in Gaza and in this current instance.

We don’t appreciate being associated with criminal activities undertaken by federal Service Vendors acting in their own private capacity, and we are not acquiescing to any presumed or assumed participation in or approval of this dishonorable and violent act.

Our Title IV Flag is not to be used in connection with any action you might anticipate. Your corporate meddling in the Middle East, like your corporation’s support of the Israeli regime, has nothing to do with us nor any powers we delegated to your corporation as a Service Vendor.

If the members of your Rump Congress have any idea that they have the authority or ability to conscript or press-gang any of our people based on unconscionable contracts procured under conditions of deceit and non-disclosure, they should be encouraged to think again.

The Neocons you have surrounded yourself with, are not nice people. They and their associates make their money off war and from stealing natural resources from other nations. They seek to influence you in your position of Commander-in-Chief to their own advantage and have no actual, sincere concern for anyone or anything but themselves and their corporate bottom lines and their opportunities for career advancement.

This country is naturally a peaceable and honest good neighbor and we have no intention of sitting idly by while British greed and British Territorial intrigues and self-interest once again threaten the entire planet.

We will not be presumed to have anything to do with the mercenary actions now taking place in Europe and Ukraine, nor the carpet-bombing of Gaza, nor the illegal and immoral actions which have been taken against Iran.

Your private interests as a corporation are your private interests as a corporation and we have no authority to speak to that, but we do have a voice when a Federal Subcontractor is run amok and pursuing mercenary conflicts by proxy and flying our Title IV Flag as if your actions had anything to do with us or the service contracts that your organization is supposed to be honoring.

If you want to pursue the continued cruelties you have gone along with in the Middle East, fly your true colors. Run up the Union Jack and the Crown Corporation flag and stand as who and what you are.

Don’t imagine that Americans are going to pay your debts for this, in blood or anything else.
