The United States of America —
Federation of States

Don't be fooled.

The "Q" contingent has just announced that the St. Germain Trust, also called the World Trust, is slated to pay for the fake Jubilee and fake GESARA.

The St. Germain Trust has been hijacked by Jewish Bar Attorneys from Schaumburg, Illinois, and unlawfully converted from a Common Law Trust to a statutory trust in violation of the trust indenture. They have done this with no granted authority from the donor(s) to meddle with the nature or structure of the family trust.

They went on to seize the assets and invest in profane things that are offensive to the nature of St. Germain.

I am so far as I know the only verified living relative of St. Germain — there may be others, but they have not come forward. It is possible that I am the last of his line and therefore the last donor of the family trust assets whether the structure of the trust is common law or statutory law.

What is certain is that I am a donor and the only one known at this point in time, therefore I have the right to speak to this matter in both private and public capacities.

Our Germanic family roots in modern times go back to the Dolomite Mountains— the Tyrol, that blessed and odd land between Austria and Italy where the people speak German and eat Italian and also on a straight line, more or less, westward of the ancestral home of the Cathars in the South of France who were eradicated by the Roman Catholic Church in the infamous Albigensian Campaign. They were relatives of ours.

Note the town of Albi in France that gave its name to the Albigensians (Cathars) is also what gave Britain the ancient name Albion, as in Shakespeare's reference to "perfidious Albion".

Root word "Albi" again. Albi, Albigensian, Albion, St. Albans — St. Germain was known as the Baron St. Albans in England.

In the years between our fight with Octavian's Legions in 9 AD in the Battle of Teutoburg Forest and the eradication of our people in Languedoc, basically a span of 1200 years, the Cherusci had conquered France and firmly established the Kingdom of Gaul and settled not only the Dolomites but Southeastern Germany (Dresden and Issagau) then East to Prussia, and West to Normandy in Northern France.

We also invaded England — not with soldiers, but with trade routes and blood treaties going straight across the English Channel to North Umbria and down the middle of England to the great southern ports. From there, we migrated to Northern Spain, mainly Castile.

This is why St. Germain had titles all over Europe including France, Germany, England, Austria, and Hungary.

He may have even had more titles than I can think of, off the top of my head.

Our German family name “Reitzenstein” means “Rollingstone” for a reason.

The name is not Jewish; we are “steins” for a different reason. We are stumbling blocks, which may not sound good, until you consider examples such as the present situation where most of the world has been led astray and evil men like Klaus Schwab and Larry Fink have risen to power. Then, it’s a fine thing to have a tumbling, rolling, boulder slip under their feet.

Anyway, I know who I am and where I come from and my family and our unique nature and I wish to draw everyone’s attention to one of the actual requirements of the trust indenture that is being mocked at the present moment.

In order for funds to be disgorged, the world must be at peace.

Imagine that?

So Trump, one of the chief remaining advocates of war, is in the unlikely position of scuttling around in the role of a promoter of peace— fake, self-interested peace. Did you notice how fast Netanyahu settled down and Zelensky, too?

The World Bank is now scared enough of exposure so they are sticking to their guns and to the trust indenture. The world must be at peace before the trust can be disbursed. So all the rats are telling the other rats, hey, fellas, we can get all this money if the world is at peace, so pipe down, come together, and we can gut this fat pig of a family trust for our own enjoyment and for political payola and more wars! All we have to do is maintain peace long enough to get the money!

And how long is that? According to the World Bank, at least 120 days.

If you start being peaceful by the third week of September, more or less, you can be standing in front of the vault doors on Christmas Eve when the trust opens and makes disbursements.

But that is not the petty intention of the Trust Indenture.

The demand that the world be at peace — real peace — is a safeguard against exactly the petty, small-minded, and selfish behavior we are seeing now.

If the world is not sincerely at peace, then the money will be wasted because the Vermin will immediately glut themselves and return to their vicious war-mongering ways and within days, we will be “treated” to World War III.

So this is a directive from the known Donor-Heir to the St. Germain Trust to Donald Trump and the World Bank and all Bank Trustees— (1) the Saint Germain Trust is an American Common Law Trust and I direct you to return it to its proper jurisdiction on the land and soil of The United States; (2) make sure that “world peace” isn’t being manufactured by the war-mongers cutting deals among themselves simply to establish a temporary peace and get the money; (3) I assign the Trust assets to the Global Family Bank which has been created and chartered for precisely this purpose at this point in time.

The Vatican has a sample of my blood granted specifically and only for the purpose of establishing my standing and Ecclesiastical Deed Poll. They admit who I am.

So, when the Donor says no, the Trustees must act, and I act in the capacity of the remaining heir and therefore, the Last Man Standing and the only authority having the right to demand return of the Trust assets to administration under American Common Law, and also direct their new assignment to the Global Family Bank, not the World Bank.

The Purpose of the Trust, to educate and support humanity, provide needed infrastructure, and promote peace — has not changed.
