

Shut Them Down

International Public Notice

March 1, 2026

The United States of America —
Federation of States

Both America and China have been ruined by the bankers and the tech platformers and the same venal corporations are cannibalizing every nation-state in the world in the process.

Be aware that this Manifest Evil depends on false “legalizations” of criminal activities and False Claims in Commerce and phony baloney bookkeeping — the same false bookkeeping that the Romanovs used to bankrupt Russia, the same false bookkeeping that the Rothschilds used to bankrupt the British Empire, and the same false bookkeeping that the banks and the techies are trying to use to bankrupt what is falsely being called the “American Empire” — which doesn’t exist.

We have been used as the storefront for the ever-greedy, ever-manipulative bankers of the British Empire, and have been “mistaken” as the debtors for this criminal enterprise, which actually victimized us as much or more as they victimized everyone else.

The key to understanding this?

Washington, District of Columbia, isn’t part of America.

Washington, District of Columbia, is a foreign enclave, set apart to serve as the “Federal Capitol” — and the “District” that surrounds it, is also foreign — another enclave set apart as a place for all three of the original Federal Subcontractors to conduct business.

To further delineate this, Washington, DC, is both a Municipal enclave (the area around Capitol Hill enclosed by the Boundary Stones) associated with the Municipality of Washington, DC., and a surrounding city — the City of Washington, DC, which is supposed to be run by the long-vanished American Federal Republic Government, and which has been occupied by the British Territorial United States Government since 1861.

This is a repeat of the pattern set by Vatican City surrounding the Holy See and the Inner City of London surrounding the Temple.

None of this is “American”. All of it is “Federal” — pertaining to and belonging to Subcontractors hired by the American Government to provide certain “enumerated services” associated with the “enumerated powers” granted to these subcontractors allowing them to function in the stipulated capacities agreed to via three Federal Constitutions.

The actual National Capitol and Seat of Government of this country— is and has always been Philadelphia, Pennsylvania.

In theory, any foreign government could take out the entirety of the District of Columbia like excising a wart, and not even violate our air space.

Many Americans would be too dumb to realize this and would think they were under attack, but the fact remains that the District of Columbia is a separate and foreign entity.

Like Vatican City, and the Inner City of London, the Municipality of Washington, DC, is an infinitely corrupt and evil “independent international city-state” engaged in financial crimes that would make a stone weep, while the District of Columbia as a whole, has become a hotbed for every kind of international mercenary crime and corruption imaginable.

Witness the devastation that has happened in China and observe with us that “You can’t fix Evil.”

You can only tear up its charters and void its registrations.

We are petitioning the UCC-1 courts to do exactly that, at the earliest opportunity, and also alerting the worldwide community and the American public of the necessity of these actions and the operation of the so-called “Dutch Collapse Template” that has been used to cause millions of deaths at the hands of these international bankers and tech moguls.

Here’s how the Dutch Empire ended and your own fate, too, worldwide unless you all wake up and shove:

The Dutch Economy shifted from production to financial management. And died. The Dutch bankers began investing in the very Navy that blockaded Dutch ports.

See it for what it is, everyone — and we do mean everyone. All countries, all nations, this is a pattern, and the Americans and the Chinese have both suffered the same fate at the same hands: the bankers.

The problem is banking.

The problem is the monopoly of banking interests and transfer systems.

The problem is the transnational corporations, especially those providing mercenary services for hire and those engaged in transnational tech development.

Right now, behind the scenes, the bankers are still intent on collapsing the “US” economy just like they have already collapsed the Chinese economy.

The parasites tried to move to a new Host — China, but China figured it out and refused to eat the

tapeworm.

So now U.S.A. Inc., and its European franchises in the EURO Zone are conspiring to very quietly take up new positions in Ukraine, under their Plan B. Plan B was to move their operations to Ukraine instead of China, if China refused their “offers”. They already had Zelensky in place since 2014 and figured that the Euro franchises could give him enough support to keep the door open.

Vladimir Putin shut the door in sheer self-defense. So now, as soon as they have finished Iran off, all the thug corporations plan on ganging up on Putin, like so many dogs in a dogpile of a different kind, though the Brits are at the bottom of this dogpile, too, just as they always are.

China has been ravaged by economic warfare unleashed by the Vermin, and Russia has been engaged in a hideous long-term slugging match foisted off on the Ukrainian people by everyone’s favorite imported dictator, Zelensky. Now Trump is battering Iran with 6000 ton “bunker blaster” bombs and the irony is, that to the best of our knowledge, both Trump and King Charles III are dead.

The current situation takes the whole Hollywood concept of “Dead Presidents” to a whole new level.

All this chaos is being staged to keep everyone’s attention focused on this horrific drama, while the real conquest these vermin anticipate is being set up in the wings at the U.S. Treasury and Goldman Sachs and the Federal Reserve enclave in Geneva.

They have caused all this misery with malice aforethought; some of it was planned in 1908, and is still being carried forward.

And our Mission, the Mission of every thinking person worldwide? — Is to prevent another commercial bank monopoly, the “QFS” – “system” which is being offered as the solution to the trauma these same villains have caused and unleashed upon the Earth.

There is an alternative, and we built it, because we can’t fix evil. We can only offer a different answer: the Global Family Bank network, gold-backed American Federation Dollars and asset-backed prepaid credit Heritage Dollars, which is a real solution, not another scheme.

For everyone who is sick of this particular movie and who feels as if they have seen it far too often, for everyone who realizes that they have been enslaved by their own public employees, for everyone who realizes that the entire concept of “money” is an archaic delusion and that “digital currency” is even more loony — join us.

All the Guardians of all the nations, all the Guardians of the planet. are summoned to put an end to this Mess and those causing it, once and for all.
