

# The Man of Lawlessness

## International Public Notice

March 8, 2026

The United States of America —  
Federation of States

Mr. Trump— not “the President of the United States” — the Commander-in-Chief of the United States of America, Incorporated, also doing business as the U.S.A., Incorporated, the United States of America, LLC, and numerous affiliated franchises, has proven to be an outlaw with an iron stomach.

Trump is not the savior people in this country have hoped for and needed.

Let’s set up the context for the present disaster in the Middle East.

The era of Big Oil is over. Knowledge of free energy and the profits to be made by commercial applications of free energy have already put an end to fossil fuels, even though the pumps keep pumping.

Those who know that Big Oil is a Dead Man Walking, are facing the inevitable downturn in oil industry profits, even as the Third World eagerly puts free energy to work.

The Third World will be forced to champion and use free energy because the price of oil products will skyrocket and continue to be artificially buoyed up — by actions such as the present unnecessary supply chain interruption caused by closing the Straits of Hormuz.

As petroleum slowly diminishes into a niche in the overall energy market, the Perpetrators of this rigged system will seek to force its continued use and deny full access to free energy technology in the industrialized world.

The so-called “war” in Iran has been demanded by a Trifecta of Big Oil seeking to drain fat profits off its oil investments, Big Defense Contractors seeking to palm off the cost of trillion dollar military systems and installations that are now obsolete and the government — such as it is — of Israel.

What do you do with trillions of dollars worth of obsolete military equipment and installations that you no longer need? Simple. You get Donald Trump to act in breach of trust and service contract.

He uses the Title IV Flag entrusted to the United States of America, Incorporated, for its use when exercising our delegated powers, and he tells a Big Lie to the effect that his “war” in Iran was to defend our country against Iran.

Iran is guilty of having bad thoughts (apparently justified) about “the US” and is being attacked for developing means to defend itself against “the US” — a right that every sovereign state and country has.

By pretending that the war against Iran is a service defending our country, Trump gets to charge off the cost of this “war” to us, the same people who were bilked to pay for all the obsolete weapons systems that he is now destroying.

Yes, Americans were bilked for the sake of Israel and Britain and Germany: we paid for and the Brits ran their defense installations in the Mideast to protect Israeli and European investments, and now, we, the actual Americans, are being bilked to pay for the destruction of those same systems, which are now obsolete.

Big Defense is happy.

We paid for their system, they got paid to set it up, now they are being paid to take it down and paid a second time for their “losses”.

Big Oil is set to get top dollar for every drop of oil they extract.

And Israel, not so happy, but they have the new Sinai West canal system to look forward to, and are turning Gaza into a casino and hotel empire. Their new oil refinery system will have a lot less competition, too.

This is clearly the vision of the world that Donald Trump is buying into — just kill everyone, take their stuff or destroy it, then charge off your costs to other victims, and coat yourself in glitter like a Hollywood star.

He even says that he and his Administration should be thanked for this, as he tries to substitute a British Territorial “republic” for the American Republic we are owed and which we are fulfilling ourselves at the present time.

Let all governments and people be aware of the destructive role that the central banks and the corporations set up “in the name of” various countries, and especially, the British Government(s) have caused; their monopoly interests and acts of fraud must be opposed.
