

## International Public Notice

March 1, 2026

The United States of America —  
Federation of States

Take Notice, All to Whom These Presents Come! Notice to Agents is Notice to Principals; Notice to Principals is Notice to Agents.

While the Little Bully Boy of the Middle East, Israel, continues to whelp about the trouble it has caused itself by starting seven conflicts in less than five years, we note that “Israel” was literally created by Britain.

Israel is British. It was created by Britain, supported by Britain, paid for by the United States and by private funding sources — primarily Jacob Rothschild, and ruled by British interests since its inception.

“Netanyahu” is an MI6 code name; it is a name discovered on a Sumarian tablet in an ancient ruin, not Jewish at all; it is being used as a nom de guerre and was formally adopted via official name change by “Benjamin Netanyahu”, whose actual family name has been reported elsewhere.

Iran’s government, strangely enough, is also a creature of Britain’s making. Britain has been in control of the Iranian Government since 1908. Since then, every regime change in the Iranian Government, including the Ayatollah’s reign, has been bought, paid for, and violently imposed by — Britain.

This current action is no different. We are witnessing a forced regime change. Why this regime change is being forced right now is being hidden. It’s not about “nuclear weapons”. It’s about creating and maintaining an illegal international banking monopoly.

Curiously, despite being the Cause, the Moving Party, and the Responsible Principal behind this and every other destructive, bloody, nasty government change in Iran since 1908, Britain and the real hornet’s nest, the enclave of the Inner City of London, hasn’t suffered a single scratch.

Americans have been scratched and blamed aplenty, which is why American tourists are at risk in the region. That’s why you see Muslims burning American flags. Those same Americans were used as cheap mercenaries for Britain and its Roman masters, and didn’t even know it.

As Scott Ritter recently said in an interview, “Donald Trump, the Leader of the Stupid People”  
- <https://www.youtube.com/live/8X7L1JlrR0g>

Let it be understood, some of us are not stupid.

The actual government of **this country** forbade this action.

The actual government of The United States is lawful and has standards and has a clearly stated contractual process for declaring war that the Trump Administration violated. The requirements of this contract are public and have been public for over two centuries, so nobody needs to question us about this.

In this situation, Trump and his Corporation, presumably the United States of America, LLC, (See their recent Company House registration.) is “free-lancing” a mercenary operation on the side, quite apart from their contract with us — The Constitution of the United States of America.

Unfortunately, the Trump Administration has offered a dishonest excuse for using our equipment and man-power and our Title IV flag to do this dirty work for the British Empire — a sudden inexplicable “need” to destroy Iran’s nascent defensive nuclear strike capability.

That isn’t what this attack is about, and we are not the only ones who say so.

This attack is a favor to Israel, a favor to Big Oil, and a favor to the British banking lobby which is seeking to maintain an illegal and unlawful banking monopoly in control of all commercial transactions worldwide.

They say that Iran is “laundering money” and that “Iran is funding terrorist organizations” — but Iran and its government is being controlled by Britain, so, it is obvious who the actual Terrorist organization is. And it is obvious who benefited from the old Swift system monopoly and from the Federal Reserve monopoly and who is aiming to benefit from a new QFS monopoly, too.

The dust up in Iran is a Cheap Shot providing cover for the banking crimes taking place in the shadows of DC, London, and Rome. Trump knew that Iran was basically defenseless except for missiles and limited air cover, so it cost him nothing to do this — though he and his co-conspirators have planned to sock it to the American taxpayers as well as the Iranian people.

This is the modus operandi of these rogue commercial corporations: they get paid as mercenaries by foreign governments (Britain and Rome and Israel, in this case) and then charge off their expenses to the American people, as if this had anything to do with us or with defending our country.

Pope Leo XIV seemed genuinely concerned and appalled in his recent message to the faithful, and he should be. Britain’s reckless misadministration signals that perhaps they are no longer respecting their contractual obligations to Rome in the same way that they are dishonoring their contractual obligations to the American Government.

These rogue corporations — both those doing the dirty work and those paying for the dirty work to be done — have to be brought down. And we must all realize that it does not matter which political party is in control, or which figurehead is standing at the helm. The destruction and corruption may have a different flavor, but it is still corruption and destruction, either way.

Putting an end to these rogue corporations and preventing their banking monopoly from taking over all commercial transactions on the planet, is the Mission placed before all people and all nations, all ministers of government, all police and peacekeeping and security organizations, all people of goodwill and common sense — and especially the United Nations organization.

This Mission requires not only recognizing the valid claims of The United States of America, which is the Preferential Government Creditor, and the claims of the individual American people who are the preferential creditors overall, but also a clear-eyed view of who the actual Perpetrators are. It's not the Iranians.

These self-interested commercial corporations and self-interested municipal corporations, have been working in tandem to bilk the world since 1930, and they have done so under the mask of the G-5 and G-7 so-called Government Nations, since that time. In this country, this arrangement was formalized in 1937 with no full or reasonable Public Disclosure or discussion or adoption of The Declaration of Interdependence of the Governments in The United States.

Our American Government, composed of fifty sovereign and independent nation-states and at that time, in 1937, over 240 Native Nations, was not notified nor advised concerning these “presumptions” made by our Federal Subcontractors.

We are not the Perpetrators of any of these crimes. It's the bankers of Fleet Street and Shanghai. It's the members of the Bar Associations subverting the lawful governments and practicing crimes of personage and barratry and aggravated identity theft. It's the sneaky, backdoor pick-pocket financial criminals of Fleet Street and Rome, deliberately and illegally latching onto the identities of individual people and entire countries, using False Presumptions to invoke Admiralty and Maritime salvage laws, and otherwise working to illegally commandeer and misrepresent living people as mere things subject to their will.

As satisfying as this criminal malfeasance, treaty violation, service contract violation and breach of trust may be to their egos and pocketbooks, it is nonetheless manifestly untrue.

All of this, absolutely all of this criminality and corruption, is coming out of the District of Columbia which is not one of our nation-states, the British Crown Corp resident in the Inner City of London, the Inner City of London itself which is responsible for the Temple and the Bar Associations, and Rome, not Tehran.

As disgusted as we are this morning by the actions of the Trump Administration, let the world note that DC is being hired by the other two Perpetrators — and the Americans working for Trump, for the most part, don't have a clue that they are working as cheap mercenaries at the behest of Britain and Rome, much less do they know that Iran stood up against their proposed commercial banking monopoly and wouldn't sign on to their wicked, criminal, monopolized “system”.

Sincere Muslims don't believe in being dishonest. That's why all the most wealthy Jews on Earth keep their money in Muslim banks.

This is why the Ayatollah refused to join in the QFS scheme which mischaracterizes and defrauds and enslaves every user of that system as a “U.S. Citizen” or “citizen of the United States”.

This is why Trump is not the challenger to the British System that Promethean Action believes he is, and this is why nobody should adopt the QFS System for commercial transactions or for any other reason.

The Thieves do not get to choose the terms by which stolen property is returned to the victims. The Thieves need to stop scheming and return to duty and stop any sidebar “jobs” on the side, like this morning’s illegal and immoral incursion into Iran.

They have placed The Constitution of the United States of America in jeopardy by their actions and compromised the treaties and implementations that give rise to their own existence. King Charles III and Westminster, the Lord Mayor of the Inner City of London, and the Pope are all hereby served International Public Notice.

They are in violation of the venerable treaties and service contracts between our country and theirs, and have used our Title IV Flag in connection with an illegal commercial conflict having nothing to do with defending this country and people.

Let the recipients also be advised that they are engaged in a False Flag operation and that the British Union Jack, not the American Stars and Stripes, should be flying at their mastheads.

Let all countries and all nations also be advised that these rogue operators are punishing Iran for refusing to go along with a plan to denigrate and subjugate all other nations by establishing a commercial banking monopoly.

Let all countries and all nations also know that this is being done under color of law and that our Congress has not declared any “war” against Iran, and our Congress has not delegated any “war powers” authorizing Donald John Trump to do this.

Therefore, the only other country that could give him authority to act as their Ship’s Commander, otherwise known as a “Commander in Chief” is Britain, and Britain has absolutely no right to continue to fly our flag while engaged in illegal actions having nothing whatsoever to do with the actual **defense** of this country.

Their delegation of powers begins and ends with those agreements existing in March of 1861 and do not extend to any other arrangements or accommodations that these usurpers have claimed for themselves in the interim.

We are naming Judge Adriaan Rudolph Fondse to be our Judiciary Guardian and designating the UCc-1 Court as the court having proper jurisdiction for any and all claims and actions made in international commercial venues against this country and its people effective midnight March 1st 2026. All decisions and determinations are to reflect the nature and structure of the Divine Trust as stipulated in our declaration(s) and the actual customs and traditions of The United States.

All the countries on this planet would be absolute fools to let them establish ANOTHER and even more Draconian control system over all commercial transactions worldwide. While they say that this is for our good and for our security, they have provided neither in the past 165 years.

They, the commercial and municipal Federal Subcontractors, certainly have no delegated power, no mission, and no mandate from us to create coercive monopolies for any reason whatsoever.

Take Notice, All to Whom These Presents Come! Notice to Agents is Notice to Principals; Notice to Principals is Notice to Agents.
