

International Public Notice

July 10, 2025

The United States of America —
Federation of States

Throughout our recitals of wrongs and mismanagement related to impersonation and identity theft schemes which have been used to denigrate living people and evade contractual obligations owed by governments via the substitution of incorporated governmental services corporations we have especially noted the corruption and mismanagement of the banks.

The corruption of the banks is central to the Great Fraud, which could not exist without their participation and collusion. The Bank for International Settlements acting as the hub and clearinghouse for 63 member central banks and the World Bank along with the Federal Reserve and IMF have been chief offenders.

Today, we concern ourselves with the World Bank and its continuing misadministration.

We address this International Public Notice to the World Bank, the International Court of Justice, the World Military Authority, Interpol, and those Bankers worldwide who have some respect for their profession and reputation.

We also address this to the General Public, so that average people realize: (1) how the Avila Family has been cheated for over five hundred years by institutions they trusted; (2) how this grotesque breach of trust has adversely impacted life on this planet and the lives of billions of people who otherwise stand as beneficiaries of the trust.

The Avilas, devout Spanish Roman Catholics, wished to give back 99% of their abundant wealth for the betterment of mankind, and so they established a Common Law Family Trust for this purpose.

The original trust indenture, written in Spanish, is a public document that can still be read today. The intent and purpose of the trust is clear and simply stated: these assets are given "to break the chains of poverty and ignorance".

Yet, for over five hundred years, bankers and priests and politicians have colluded within various institutions to cheat the Avila Family of its aims, and have both contrived to plunder the assets for their own purposes and mindlessly continued to build the assets of the trust without deploying the funds for the purposes intended.

Not surprisingly, a large chunk of the physical assets of the trust have come under the management of the 63 central banks associated with The Bank for International Settlements; another large chunk of profit from the assets, resulting from trading upon these assets for decades, is represented by the ASBLP accounts held by the World Bank.

We find that the World Bank has grossly mismanaged its temporary position as an interim trustee during the time that Anthony Santiago Martin was a Minor; we find that the World Bank failed to turn over the appointed and inherited trusteeship that Anthony Santiago Martin was heir to upon his reaching the age of Majority; we find that the World Bank has no vested interest or granted authority to issue a mandate to Anthony Santiago Martin to function as a bank trustee with signature authority over ASBLP funds.

The World Bank's involvement sunsetted upon Anthony Santiago Martin coming of age; Anthony Santiago Martin's involvement ended upon his release of his trusteeship obligations and return of control over the funds to Demitrios Julius Shiva via Irrevocable General Power of Attorney in 2010.

We ask for an Operations Order from the World Military Authority and a Minute Order from the International Court of Justice, so that the lawful public and private Fiduciaries and Executors can do their duty owed to Demitrios Julius Shiva and his family.

Our notice to principals is notice to agents, and our notice to agents is notice to principals; Notice to Principals is Notice to Agents and Notice to Agents is Notice to Principals; NOTICE TO PRINCIPALS IS NOTICE TO AGENTS; NOTICE TO AGENTS IS NOTICE TO PRINCIPALS.

Please see the Claim of Right, Claim of Assets and Accounts, dated July 9th 2025.
