

# International Public Notice

June 2, 2025

The United States of America —  
Federation of States

This is to fully inform you in the criminal sense, of ongoing criminal misrepresentations that have been made by your predecessors in office and which — according to recent statements you have made— are apparently impacting your understanding of the current situation.

“America” is not in debt. Neither are any “Americans” in debt. Our material assets are not to be understood as nor attached as collateral underwriting “US” Debt.

The debt is all “US” Debt, as a simple transactional analysis proves.

Who has been issuing and presenting Federal Reserve (Promissory) Notes and using these as legal tender under their signature? Your Predecessors, such as Steven T. Mnuchin, and the “Treasurer of the United States” — an unknown, unelected Puerto Rican official.

Are these “Federal Reserve Notes” a “legal tender” currency?

The definition of a “legal tender” is: Legal tender is money that is legally recognized for the payment of debts and must be accepted for that purpose when offered. As

Treasury Secretary, you are expected to know this.

Not only do these “notes” fail to meet the definition of “money” as a medium of exchange having value in-and-of-itself, and are therefore not legal tender —these I.O.U.s stipulate no medium for which they can be exchanged nor do they stipulate any date of maturity for the debt they create.

That is, you are not issuing any form of negotiable instrument when you issue Federal Reserve Notes, nor are they any form of “legal tender” either — yet under their signature and purported authority, your Predecessors in Office have created and presented these “notes” for credit under duress, having removed all actual forms of payment from the domestic marketplaces of this country.

Americans have been forced to accept these imperfect I.O.U.s “as if” they were “legal tender” and have had no recourse but to exchange actual goods and services for them.

This is literally a Something-for-Nothing Swindle executed under duress — essentially a theft under color of law — and your Office and the Office of “Treasurer of the United States” are complicit in it, as are the private Federal Reserve Banks and a Municipal Corporation calling itself “UNITED STATES OF AMERICA”.

As these are your “notes” and have been issued by United States Officers, and as these are deliberately imperfect representations of United States debts, and as Americans have been induced under color of law and duress to inequitably exchange these notes for actual goods and services, there is absolutely no doubt that the debt incurred is owed to the American victims who are the Preferential and Secured Creditors — and otherwise, this debt has nothing to do with America or Americans, and is completely, 100%, the responsibility of our foreign Federal Subcontractors running the “US” Government.

So kindly Cease and Desist all False Claims and False Presumptions such as those expressed here:

And please also be aware that most Americans have suffered identity theft and False Registration as various forms of “United States” citizen without their knowledge — based on unconscionable contracts established by Third Parties while the victims were still babies in their cradles.

This was obviously done to illegally latch upon them and their assets as collateral benefiting foreign commercial interests, and to pretend a legal ownership interest in them and their assets, which does not exist.

Read that: you cannot presume that anyone born in the actual States — which have all been formally enrolled as States of the Union since October 1st 2020, retroactive to the date they entered Territorial “Statehood” — is any form of United States Citizen or citizen of the United States, absent a consensual validated and voluntary and fully disclosed employment contract with one of the Federal Parent Corporations or a fully disclosed State of State franchise.

It has also come to light that the villains responsible had falsely claimed that our country is in a “state of emergency” and that they have “Emergency Powers” and that they are “at war” and that the Laws of War apply, but this is just one more self-interested set of lies.

These claims arose under the circumstance perpetuated by the so-called American Civil War, which was an illegal Mercenary Conflict instead.

There is no actual war, no recourse to The Law of War, and no excuse for these Gross

Breaches of Trust and violations of their Service Contracts which Americans have suffered at the hands of their foreign Federal Subcontractors and their Officers — such as yourself, Mr. Bessent.

Kindly Cease and Desist all False Claims and Presumptions related to Americans, including any presumption of war, “United States” citizenship of any kind, and debt. Americans in every State of the Union have self-declared their correct birthright political status and published it upon the Public Records, established their provenance and standing, and brought their customary State Assemblies into Session. These are your Employers and the actual Owners of the physical resources of each State of the Union. They have issued their internationally sufficient State Assembly Credential Cards that identify them as American State Nationals and as individuals. (You may not know this, either, but Americans inherit their nationality from their State of the Union where they are born.) So that your Department and the State Department may readily consult the appropriate database and OR Code to confirm that these people are Americans and not Debtors and not part of any commercial “war”.

Each one of them is an internationally protected person and for further identification purposes, they fly the United States Civil Peace Flag because our actual country and its people have been at peace since 1814 and retain all non-delegated rights to fly all flags not assigned under Title IV of the U.S. Federal Code.

We hope that this information has been sufficient for you to begin grappling with the actual situation and realizing who is and who is not responsible for the so-called “National Debt” — which in truth, does not exist, because the Americans have already paid it hundreds of times over using actual goods and services, leaving them to stand — by far — as the Prime, Priority, and Preferential Creditors of the Federal Parent Corporations and all State-of-State and State Trust franchises.

Only one other comment, Mr. Secretary — as the Americans have already paid any “National Debt” several hundred times over in inequitable exchange of actual goods and actual services, there cannot be any presumption of any foreign insurable interest in the presumed-to-exist “debt”, nor can there be any excuse for charging any “interest” on this debt.

The so-called “National Debt” together with all “Interest” ascribed to this National Debt has been created by fraud against clueless Americans who did not “benefit” from it. It therefore qualifies as Odious Debt and must be appropriately discharged, either by yourself or the appropriate “United States” Trustees, as the case may be.

The Perpetrators of this matrix of swindles and lies have pleaded that they made some good purchases “for” America and they provided some good services for Americans; this may in part be true, however, a “gift” that you pay for yourself, is not a gift, nor is it a “benefit” which implies the existence of a Benefactor other than yourself.

The situation we face here is that we have been misrepresented and swindled by our public employees — literally foreign service vendors presumed to be Successors to contracts known as the Federal Constitutions.

The Federal Subcontractors are privately owned and their Officers have occupied our Public Offices at their peril. They have no elected Public Offices and no Public Bonding and no Public Oaths. They were, until 2013, acting as licensed privateers, when Pope Francis issued his Moto Proprio disavowing the actions of the Bar Associations and rescinding the licenses issued under the authority of the Roman Pontiff and the Treaty of Verona; the authority of the Roman Pontiff underwrote the authority of the British Monarch responsible for the similar privateer licenses issued to the British Crown Corporation Officers.

This means that as of 2013, there were no valid privateer licenses available to justify any hostile action by the Bar Associations or British Crown Officers against the people of this country.

Francis’s action was undertaken as part of the dissolution of the Office of the Roman Pontiff, which was completed by 2015.

Subsequent action attempting to “redefine” the Secular Office of the Pope as the “Patriarch of the West” and to change the office and jurisdiction of the British Monarch to “His Imperial Majesty” so as to roll the same old cozy accommodation over into the air jurisdiction have been challenged as attempts to flee justice — successfully.

These commercial and municipal organizations have acted secretly and in Bad Faith to unjustly enrich themselves at the expense of their American Employers, and have misrepresented their Employers and engaged in unnecessary “salvage” operations against their Employer’s interests.

When a robber steals everything you own and returns you enough for a meal, it is not a gift; it’s a token payment and an attempt to mischaracterize their actions as being undertaken in good faith, when in fact they have robbed you, as they have robbed us all.

Our purloined assets and material interests — our Good Names, grants, patents, copyrights, trademarks, gold, silver, land, and all other beneficial physical and material

assets must be returned unharmed to us; our credit, including prepaid credit, must be returned to us.

Our Bilateral Banks are ready to receive back these assets and assign them to member National Prosperity Centers — not “Banks” anymore — for the support, comfort, and healing of the living people and the Earth’s biosphere.

Please prepare for a peaceable transition.

Cease and Desist all False Claims against Americans being misrepresented as any form of United States Citizen, U.S.Citizen, or citizens of the United States.

Contracts owed by individual Americans who are currently acting in these “Federal” capacities as actual Federal Employees or Federal Dependents, military or civil service, and franchise Employees working for incorporated State of State or State Trust organizations must be individually evaluated for disclosure and must be fully disclosed hereinafter, plainly stated without any legal terms or terms of art, and must be fully conscionable and consensual from now on.

Notice to agents is notice to principals; notice to principals is notice to agents. Notice to Agents is Notice to Principals; Notice to Principals is Notice to Agents. NOTICE TO AGENTS IS NOTICE TO PRINCIPALS; NOTICE TO PRINCIPALS IS NOTICE TO AGENTS..
