There are some guys whose egos just won't quit.

Donald Trump thinks that he can wave his mighty Executive Order Pen and magically set the value of an ounce of gold at \$20,000.

And the reason he is purportedly doing this? “To erase the National Debt”.

The same National Debt that we have proven beyond any rational doubt DOES NOT EXIST AND NEVER DID EXIST.

The same National Debt that Americans paid HUGE INTEREST on for decades — even though no such National Debt EVER EXISTED.

Donald Trump knows this.

Grandma told him just like she told you, only she told him years ago, because he was in a responsible position and was honor bound to correct the situation.

So much for honor.

Trump has no excuse. And no honor. And no real commitment to the American people.

Donald Trump isn't trying to reset the value of gold to \$20,000 an ounce to erase a non-existent National Debt.

He is doing it to grossly reward the Sephardic Jews and Shabbat Goyim who run the Federal Reserve — a private banking cartel that set this whole con game up over a hundred years ago, just so that they could profit insanely by selling stolen gold back to the grandsons of the people they stole it from.

Buy at \$28 and ounce, sell it back at \$20,000 an ounce.

There is just one problem. It's all based on long-premeditated lies and fraud and criminal self-interest. Totally predictable and already predicted.

And now we know for sure, absolutely sure, that Trump is part of the worldwide crime problem. It's not just some kind of bureaucratic mental illness. It's not an Outsider being misled by the Insiders. It's a Zionist Tory in American clothing.
