

International Public Notice

January 14, 2026

The United States of America —
Federation of States

For those of you who read our response to Chatham House, otherwise known as The Royal Institute of International Affairs, the parent-collaborator of what is called the Council of Foreign Relations in this country, and which has “partners” in virtually every other country — this brief video will further expand upon exactly how the hypocrites have endeavored to launch Globalism, aka, Imperial Colonialism, and impose it upon every other nation as they attempt to ever-increase the power of the Imperial British Empire.

Yes, in plain language, the British Government is the Source of Globalism, and Globalism has nothing to do with humanitarian projects or globe-spanning positive economic cooperation. It has to do with expanding the influence and coercive power of Great Britain, a criminal colonialist Empire operating as a Company, not a country.

Read that again. Great Britain, as we have repeatedly warned, is a Company, not a country.

The Company, or as it’s incorporated form is called, The Firm, built a toxic, criminal system of preying upon other countries and their resources for Britain’s benefit throughout the Nineteenth Century.

We called this system “Colonialism”, and beginning under the League of Nations, efforts were made to decry the criminal nature of Colonialism practiced by Great Britain and numerous other European Governments also functioning as Companies, not countries.

Colonialism not only effectively stole the resources of other countries, it subjected their national populations to peonage and enslavement. It was this realization that led to the League of Nations efforts to outlaw both peonage and slavery worldwide in 1926.

While appearing to regret their colonialist past, the British Government spun a Public Relations campaign, declaring an end to Colonialism in the 1960’s, but this was a shell game. Colonialism and its signature interference and thievery only entrenched and began operating in Territorial jurisdiction, where Great Britain and other European Monarchies operating in the same fashion had access to “national military services” — that is, mercenary forces paid for at public expense.

Instead of ending Colonialism, Great Britain regrouped, redefined, and launched “Globalism” — aka, Colonialism on steroids, reinforced by foreign mercenary forces, which are usually paid for by the victims, and tech vendors like Tesla and Palantir.

These short videos, above, tell the “rest of the story”. Yes, Trump killed the so-called “Western Alliance” and now, Germany has left NATO, which is the real death blow to it.

Why? Because The United States, the actual country, was funding its own demise by paying over 96% of Europe’s defense costs, as well as funding every Globalist program, NGO, and shelf corporation.

This was the result of the “Special Relationship” — that is, having our Foreign Policy dictated by Britain for decades, often to our own detriment. Germany was similarly used and abused, carrying the bulk of industrial and utility taxation for the British Scheme, while Brits back home also suffered some of the highest utility costs on Earth.

“Uncle Ernie”, the code name of the Imperial British Empire, has been an equal-opportunity abuser. The British people were abused just as viciously as people elsewhere.

Our own Special (Abusive) Relationship is now shattered. America was seduced and date-raped, but finally recognized Uncle Ernie as the culprit.

Germany has recently come to the same conclusion.

All of Europe has recently recognized the carbon dioxide mania as a pseudo-scientific excuse for more taxation, more wealth siphoned away from the productive sector of society, and into the pockets of the manipulators. India, China, and Russia figured this out when it first started decades ago, but better late than never.

The peonage and enslavement typical of colonial empire reappeared and spread, only this time, it exerted more coercive power through the foreign mercenaries the Perpetrators hired at public expense, through the “civilian military” personnel they conscripted and controlled via licensing agreements, through the courts, which acted as glorified bill collection agencies and which operated under blatantly false and self-interested presumptions, and last but not least, via “citizenship” obligations that were “conferred” without the knowledge or consent of the victims.

France has been a major and known collaborator with the British Globalist regime, ever since the days of the Vichy French Nazi collaborators, who founded and funded the first “UN Corporation” in 1943. Belgium has been another key Colonialist promoter.

Here is a bird’s-eye view of the nasty face of veiled Colonialism, as Prime Minister Macron threatens not only Ibrahim Traore for refusing France’s poisonous “help”, but also threatens all the other African leaders who grow backbones and assert the right of their countries to benefit from their own natural resources and produce their own value-added products, and issue their own national currencies:

Macron then blatantly threatened Traore, admitting that France had assassinated African leaders or used proxies (like U.S. Forces, unfortunately, in Libya) for decades to kill or cow any African leader who refused to be bought off.

Listen carefully to how France weaponized financial infrastructure and misapplied “security” measures

to create chaos.

Substitute “Colonialism” for “Globalism” and you will have the idea: a coercive, monolithic corporate structure ruling over all means of production, all natural resources, all currencies and banking, all political and education infrastructure.

This requires complete control of labor needed to run this machine.

‘Robots to replace living workers’ was music to Globalist ears. They happily engaged in plans to kill most of the human population, denigrate living people as “transhumans” defined and owned as Genetically Modified Organisms, and otherwise smash or co-opt any Labor Unions that might resist.

Have you noticed the silence of Labor Unions as jobs and entire industries have been decimated by the Globalist regimes? As labor contracts and base wages have languished for decades without even keeping up with the cost of living? How Union dues increase with no increase in benefits? How the Unions no longer challenge the government regulators in court or anywhere else?

Globalism is Colonialism, updated and operated from the international jurisdiction of the sea, instead of the jurisdiction of the land.

It is the same evil and the same players, just the same.

Colonialism is just as repugnant as it ever was.

We didn’t have a “special relationship” with Great Britain. We have had an abusive relationship with Great Britain and they were the Abusers, acting in Gross Breach of Trust and in violation of their own service contracts.

Undeclared British Foreign Agents have crippled our political processes, misrepresented our government, dictated our trade policies, purloined our assets, and terrorized and enslaved our people for sixteen decades.

Many other countries have suffered the same way.
