For thousands of years, mankind has labored and struggled through untold suffering and loss from wars, slavery, fraud, usury, credit, taxation, and economic abuse; we call this arbitrary system “Evil-nomics”. This system benefits a few crooks at the gross expense of the many.

It doesn't have to be this way. Nobody has to suffer. Not anymore.

The new financial and economic system put in place by the actual American Government benefits everyone on a worldwide basis. We call it “Love-onomics”, because it is motivated by love for people and love for our planet, love for harmony, community, and life.

Say good-bye to evil and hello to a whole new way forward:
