

Reflection, humility, and gratitude

Dear Foster and Kimberly, 10/16/2020

I would first like to express my humble gratitude and express my unconditional LOVE to both of you. I am grateful for your LOVE and dedication. Thrive I and Thrive II are intrinsically priceless.

I am the founder of Global Family Group. <https://globalfamilygroup.com>

My journey began in 2008 - researching my hypothesis "LOVE is ENERGY", My research focused on identifying the energy of LOVE. The questions that I wrote as the basis of my research was the following:

1. Why is this World Dysfunctional?
2. Politics, Religion, Education, Banking, etc.
3. Why is there such a wide gap between rich and poor?
4. How is it that 1% of the people controls more wealth than 99% of the people?
5. Why is humanity so destructive?
6. Why are we segregated?
7. Why is humanity disrespected and abused?
8. Why is life so chaotic?

We are programmed to believe life is balancing opposites, good and evil, up and down, yin and yang, positive and negative. However, I began to observe from an energy perspective of vibration and frequency that LOVE and EVIL are not opposites, my research concluded that love and evil are two completely independent energies which are incompatible in vibration, frequency and therefore are not in resonance. From that moment of discovery, I embraced to be empowered, liberated, and chose to align precisely to the ENERGY of LOVE, acknowledging the "EVERYTHING is ENERGY" and to share this knowledge.

I am all in with Unconditional LOVE!!!

I established the Global Family Group in 2013 to educate, empower and liberate humanity, to share with the masses that we are empowered to LIVE PURE LOVE and to liberate ourselves from MANIPULATION ,ENSLAVEMENT, ABUSE, AND DESTRUCTION OF EVIL.

Global members empowered to intend, create, and manifest. Collectively, we transmit intentions to align with others that are dedicated to LOVE and liberating humanity. I am encouraged, inspired, humbled and grateful to resonate with others that are doing their part to share knowledge of conscious awareness that we are as I quote your email " Our true nature is creative, courageous, loving, and free". We are all connected. Everything is truly Energy.

The universe aligned I came across your first documentary "THRIVE" on you tube, I had no idea what it was about, however, I resonated, embraced and acknowledged with gratitude the ENERGY ensuring that I click on your documentary and the rest is history. We are aligned!!!

There are so much more to share. I would like to humbly reach out to intend, create and manifest to resonate in alignment our intentions to liberate humanity. Global's passion and purpose is to focus on humanity healing and uniting.

I am all in with Unconditional LOVE!!!

I look forward to intending ,creating and manifesting to align our energy.

Intending, creating, and manifesting pure LOVE
