

International Public Notice

November 11, 2025

The United States of America-Federation of States

International Public Notice: Dear Mr. Trump, It's Veterans Day

Millions of Americans have been denigrated and defrauded by the operations of the "federal" government subcontractors dba various versions of "US, INC." Municipal Corporations and "U.S.A. Inc." British Crown Commercial Corporations and their franchises. Many of those Americans are veterans and retired civil service workers.

Nobody has worked harder or suffered more, but in truth, everyone in this country has suffered fraud, deceit, corruption, and many other crimes for the past sixteen decades.

Part of this has been accomplished by banks allowed to continue functioning in insolvency, and part of it has been accomplished by securities brokerages allowed to securitize labor and living flesh, and part of it has been accomplished by foreign "District" Courts of two different kinds, one of which, Municipal District COURTS should never have been allowed to function in any State of the Union, and one of which, the Territorial District Courts operated in "Judicial Districts" should have been limited to addressing actual Federal workers and their dependents.

What do you propose to do about this?

We recommend an immediate shutdown of all Municipal DISTRICTS and CORPORATIONS operating within the borders of the States of the Union, followed by an immediate correction of all Territorial District Courts and "State of State" Courts operating in so-called Territorial Districts, telling them to observe the limits of their jurisdictions and avoid misaddressing any American who is a non-citizen National.

A nice, clear, concise Executive Order (which still applies to corporation employees and volunteer members of the "civilian military") to this effect telling these miscreants to stand down, will ultimately save money and save lives.

All Americans are tax prepaid and exempt from levy, not subject to any taxation promoted under the Sixteenth Amendment, and not subject to any foreign law, trust, or ESTATE assumptions.

You can also kindly attend to the malfunctioning of the Department of Justice and its employees, including but not limited to Daniel Applegate, who has seen fit to allege the existence of multiple names for me, names that he made up out of thin air or created by combining variations of my Public Name and Pen Name --- none of which he had any cause or permission to do. All my "vessels" in commerce or trade are American vessels and they are tax prepaid, exempt from levy. That includes my pen name, Anna von Reitz.

The United States State Department / Department of State and the various Lieutenant Governors, Governors, and Administrators have all been fully informed and presented with the documentation proving that I fully expatriated from any presumed political status as a British Subject or Federal person of any kind. This has been on the public records at least thirty years and should require no additional effort on my part to reiterate.

This "lawfare" and additional "lawfare" carried out against me using False Suppositions of foreign citizenship and False Claims of tax indebtedness attached to names merely similar to but not the same as mine -- e.g., an unknown "Riezinger, Anna S" and so on, at the level of some merely-presumed-to-exist "District" reaching down to allege a "district court" at the level of a STATE OF STATE --- that is, a "DISTRICT COURT OF THE STATE OF ALASKA" is just more proof of chicanery involving courts, commercial crime and False Claims in Commerce being misapplied to Americans.

A district is a district and a state is a state and a state of state is a state of state, Mr. Trump.

The appropriate solution is to send all the district courts back to the District of Columbia where they belong, not rampaging around misaddressing average Americans as district personnel.

In my case, that has resulted in bureaucrats selling an unearned interest in my house and land --- which I own free and clear --- and the assertion of foreign citizenship obligations against my Good Name, which I also own free and clear.

Now, obviously, Mr. President, you can't sell what isn't yours. You are prohibited by national and international law from conferring foreign citizenship obligations on American State Nationals. Your Administration is prohibited by your Service Contract,

The Constitution of the United States of America, from illegal takings, illegal latching activities, and illegal confiscation of private property.

And yet, here I and millions of other Americans, including veterans, sit--- falsely accused of owing tax debts to foreign corporations that: (1) have no taxation authority beyond taxing themselves, or (2) have no right to be here and no contract with us.

If the parent corporation(s) are prohibited from these activities --takings, latching, and illegal confiscations taken against average Americans under armed force, it follows that their franchises and agencies are all similarly prohibited from indulging in these actions, and that you are responsible for your officers and agents.

It seems very odd to have to observe this to a man of your years, but all this mismanagement and crime is resulting in clueless people trespassing on the land jurisdiction we are owed, and endangering lives as they show up as armed thugs. Except for our better nature and understanding of their ignorance, this should, properly, result in them being shot on sight, as gangs of armed criminals impersonating law officers.

There has not been an actual properly declared war here since The War of 1812, and commercial mercenary conflicts are illegal. Your franchisees and agents are breaking the actual law while wearing uniforms and impersonating officers of the law. No wonder people are confused. No wonder they vote to defund them.

This dangerous and unnecessary breaking of the peace is being caused by your corporation(s) and their franchises and agents being mismanaged, so the demand for correction comes back to your desk. And so does the liability for it.

Shut down the DISTRICT COURTS and their franchise STATE OF STATE COURTS and re-educate the District Courts and their Personnel, so that they are no longer committing crimes and trespassing on us in the name of justice.

We've had quite enough criminality, rioting, invasion, and breaking of the peace without additional provocation from wayward federal and state-of-state franchise employees seeking unjust enrichment.

It's your job, Sir, to keep them in line. Shut down the Municipal COURTS and other noxious Municipal Corporations that prior administrations have allowed to encroach within the borders of our States.

We've made it very clear by our actions and our notices and publications and work within the international community that the so-called Administrative States and/or

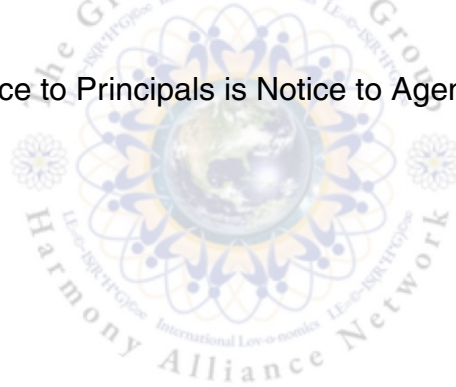

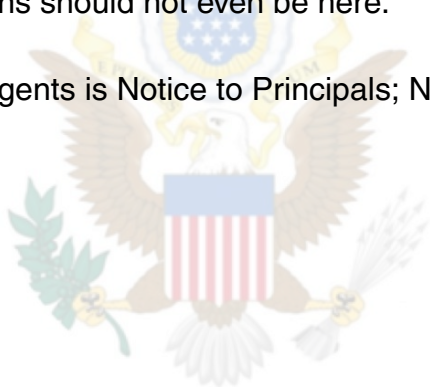

Territorial Administrative States no longer exist and haven't existed since October 1st 2020, when they were all retroactively enrolled as States of the Union in fulfillment of the process mandated by the Northwest Ordinance.

There is no such thing as any "Territorial District" that can be justified in operating extraterritorially within the borders of our States of the Union--- not according to our treaties, international law, and your service contract(s). Now that the Territorial Administrative States have been enrolled as States of the Union, the role of the Territorial Government is fundamentally limited.

We live in anticipation that you will turn your attention toward correction of these and other issues that urgently need to be addressed in order to promote peace and justice and maintain order.

Kindly address Mr. Applegate's false presumptions and the violent illegal confiscation and latching activities of Municipal DISTRICT COURTS such as the DISTRICT COURT OF THE STATE OF ALASKA acting as Agents for the State of Alaska, Inc. These organizations should not even be here.

Notice to Agents is Notice to Principals; Notice to Principals is Notice to Agents.
