

International Public Notice

November 4, 2025

The United States of America-Federation of States

International Public Notice: To the British Parliament and Crown

Take Notice:

Your country is unoccupied and vacated except for the loyal men and women who have repopulated your land and soil assemblies; your leadership has left your nations adrift, undefended, and vulnerable to attack by foreign enemies. The same leadership has vacated your land and soil for the past 300 years and promoted one of the most criminal regimes in world history.

Your own corporate leadership has promoted a hundred year-long population collapse of the native peoples of the British Isles, while actively brain-washing the public into believing that they are facing overpopulation instead. In the midst of this, the same corporate leadership has recklessly opened your borders to successive waves of immigrants now in position to finish off the depopulation of the British Isles that began with the War in the Crimea more than a hundred years ago.

You are all standing there, blind-sided, dumb, or beyond corrupt, allowing all this to happen to the British homeland, at the behest of international think tanks controlled by hostile banking interests and megalomaniacs intent upon your doom, as well as the doom of the native British people.

Three times today we have had to point out that the orders being promoted by the Crown to kill everyone, the so-called, "Celestial Kill Order" requires the death of those doing the killing, too.

At what point do you realize that you are in the thrall of criminals, and have been infiltrated, used, abused, and misled to your own destruction by foreign interests?

Nine times in the past week, people have come to us, and said, "it's you, isn't it? We can hardly believe it. The Shining Ones aren't supposed to be here."

According to whose timeline?

Here's where you can immediately start your correction and aim for salvation.

In 1864 members of your institutions signaled their intention to continue naval operations in support of an illegal mercenary "war" known as The American Civil War, even after the surrender of land forces. This is self-evident in your Naval Dispositions Act of that same year.

The evils your institutions have promoted against your loyal allies and friends ever since 1864 are self-evident and placed before the entire world, exposing your perfidy, bad faith, and crookedness for all to see. This is your Dishonor and Shame for the gross breach of trust and misadministration that the entire continent of North America has suffered at your hands; your evasion of your Constitutional obligations at home and abroad could not be more clear cut.

British Territorial forces fought as mercenaries for the Northern Confederacy in the aforementioned Civil "War", at the same time that your antecedent Parliament built Southern Confederacy war ships and protected Southern Confederacy shipping and privateers.

From this ignoble and duplicitous self-profiting agenda your government(s) and institutions have followed an equally perverse and ignoble agenda ever-afterward:

(1) Describing a known mercenary conflict that your agents largely engendered a "war" and claiming that this "war" entitled your Territorial Mercenaries to occupy our country for over 160 years, purportedly under The Law of War, when no such war has ever been declared by any Congress in either The American Government or The United States Government;

(2) Telling the rest of the world that your Territorial Agents "represent" The American Government and our country, The United States, while shoving our actual public officers and elected officials aside and trying to mischaracterize them as "rebels" when it is well-known to your government(s) and other world governments, that the American States and People did not participate in any Civil War and have been at peace since 1814;

(3) Allowing your British Crown Corporation agents and franchises to promote every kind of possible calumny, crime, misrepresentation, evasion and fraud scheme against the American People, their faithful Employers, to whom they owe good faith service and protection of the same persons they have mindlessly and without excuse attacked for sixteen decades;

(4) The promotion of a foreign tax scheme and a foreign court scheme designed to expedite the unlawful, illegal, and immoral confiscation of American assets and the

securitization of our people as chattel backing the British Crown -- criminal acts of illegal latching and salvage, resulting in peonage and enslavement known as press-ganging at sea and illegal conscription on the land -- backed up by personage and barratry crimes against the American People and our State Nationals in King's Bench District Courts that should not be addressing us, much less subjecting our people to the Law of the Sea or any British "Equity" Law on our soil;

(5) For over a hundred years, your government(s) have been in default not only in regard to the Federal Constitutions, but the numerous Treaties underlying those venerable service contracts, and have allowed British Crown corporations to continue operating deceitfully under color of law and to collude with their Holy Roman Empire Successor counterparts to denigrate, defraud, and subject Americans and American assets in violation of international and global commercial law.

(6) Your British Crown Territorial Agents have promoted a system by which they have created first "Military Districts" when only mercenary forces were present, and later, "Judicial Districts" outside the District of Columbia; you have allowed these Agents to further usurp against their Employers and our States of the Union by promoting mutual service contracts with the Roman Municipal contractors -- thereby allowing these Parties to escape from the District of Columbia and to enter our States under the pretense of serving your citizenry, despite the clear prohibitions against their activities extending into our States placed front-and-center in all three (3) Federal Constitutions.

(7) Under the pretense of serving your British Territorial citizenry and the pretense that Territorial Judicial Districts have been created as a necessity of "war" you have allowed your affiliates to use the Municipal citizenry imported into our States of the Union as a tool to enforce powers of taxation that no commercial corporation has, but which are null and void because these Municipal Corporations aren't supposed to be in our States of the Union and their presence no matter how contrived, is a violation of our service agreements and our treaties with your Government(s). These Municipal persons should not be operating within the borders of our States and your Territorial Personnel should not be allowing them to invade our States of the Union under any pretext -- much less using these Municipal citizens of the United States to promote acts of criminal armed racketeering under color of law against the American people.

(8) Since the 1920's your Government(s) have allowed British Territorial Agents to actively "register" American babies as British Subjects, a form of unnatural and unlawful political conversion forbidden under both the Hague Conventions and the Geneva Conventions. The new mothers purportedly "voluntarily" registering their babies are given no disclosure whatsoever and the resulting contracts are completely unconscionable to the victims as a result.

The mothers aren't told, so the babies, only a few days or weeks old when this unlawful conversion occurs, are unaware of any conferred or presumed political status as a British Subject. This continuing evil and criminal practice is an affront to God and Man

and cannot be excused as anything but a self-interested fraud scheme amounting to a national-level identity theft.

We are aware of these and many other inexcusable contrivances that have been used to "legalize" crimes against us and many examples wherein your Government(s) have promised remedy pursuant to legalization of criminal acts, and then provided no notice to the American Public, no education, and no administrative pathway to obtain remedy.

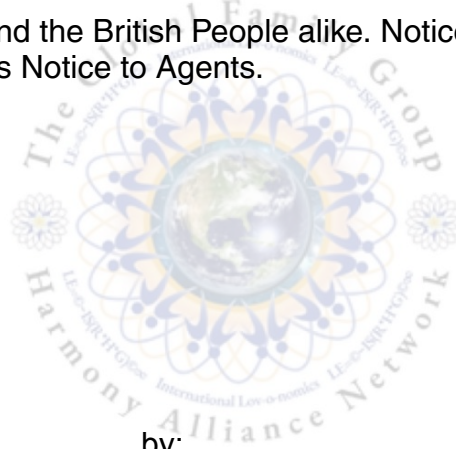

All these errors, practices, and crimes being promoted against Americans must come to an immediate and permanent end and we trust that the people of Britain will be similarly disposed to take action against continued evasion of their Land Law and the Constitutional obligations that the King and the Parliament owe to them.

We are in possession of our land and soil, our water, and our air; our government is not only present, it is fully viable and operational under the conditions and customs of our country.

This is our Notice to the British Parliament and the British People alike. Notice to Agents is Notice to Principals. Notice to Principals is Notice to Agents.
