

The Global Financial Trust Management

OPERATION SAFE HAVEN

**WHAT IS MEANT BY
'SAFETY VAULTING'**

<https://globaltrustkb.com/>

First, let's clarify
what is meant by:
FRN/'fiat' and what is
USD

FRNs are not USD!

FRN

- is a domestic currency
- backed by your goods, services, and labor
- fiat money/system

USD

- is an international currency
- is backed by oil (ie 'Petrol Dollar')
- is not related to a fiat system

THE FRN is 'fiat money',
and that means a
government-issued
currency that is not
backed by a physical
commodity, like gold or
silver.

the FRN or
Federal Reserve Note,
it is an I.O.U.

AFD is not
FRN or USD!

FRN

- is a domestic currency
- backed by your goods, services, and labor
- fiat money/system

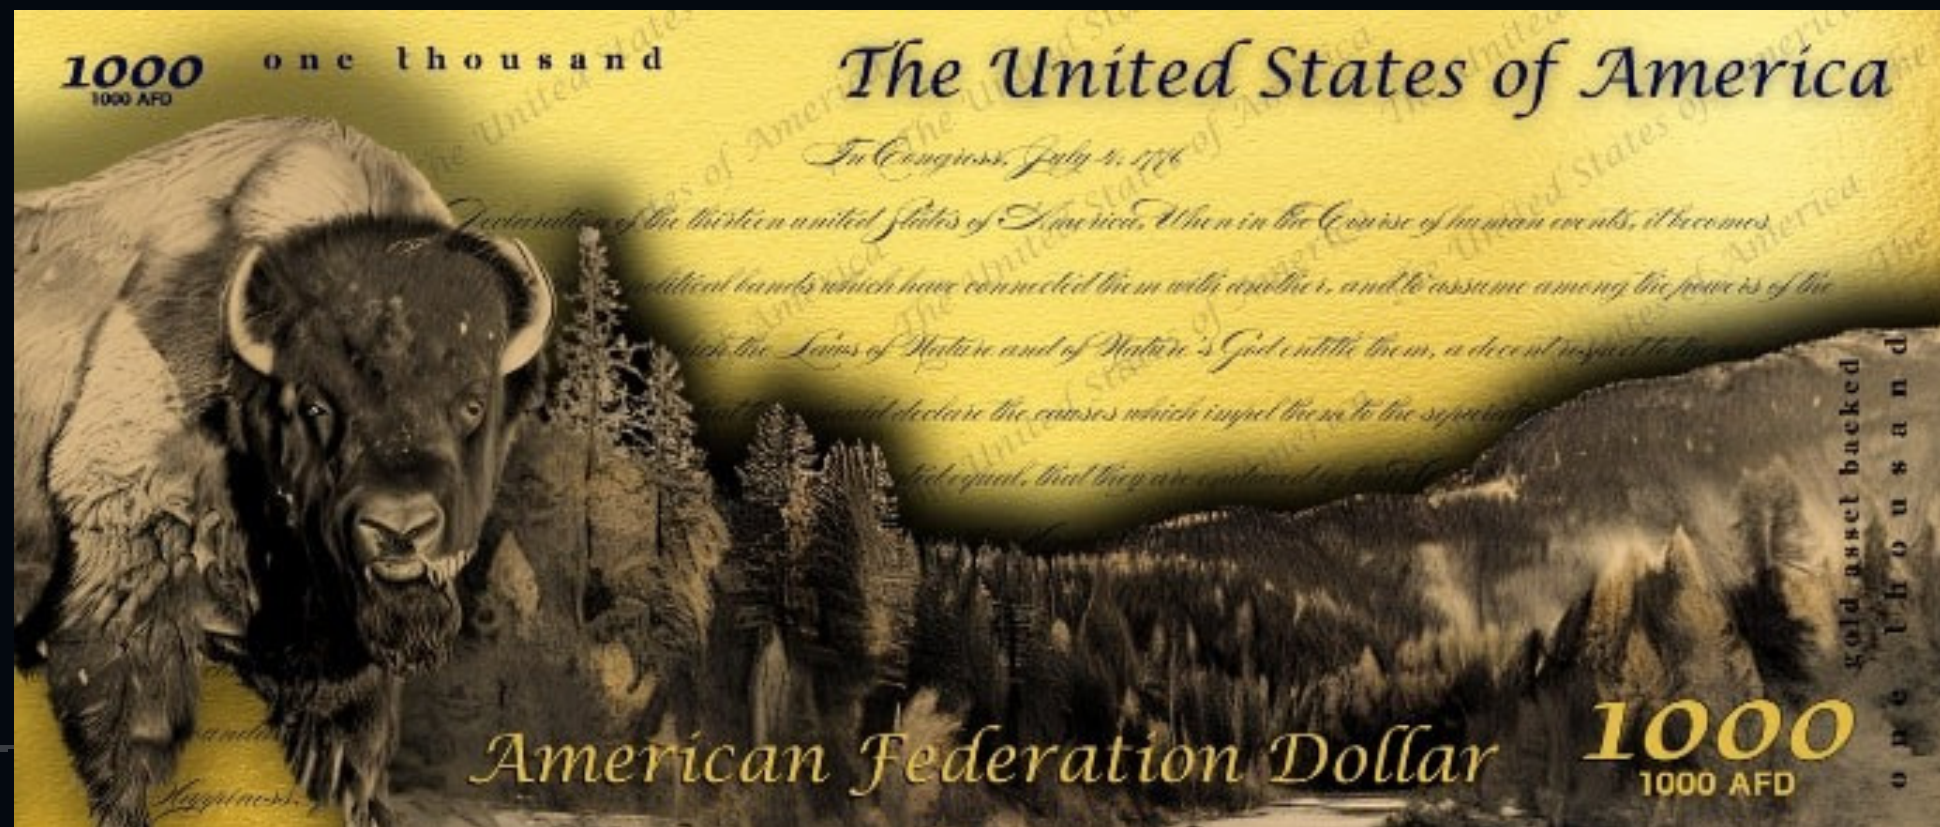

USD

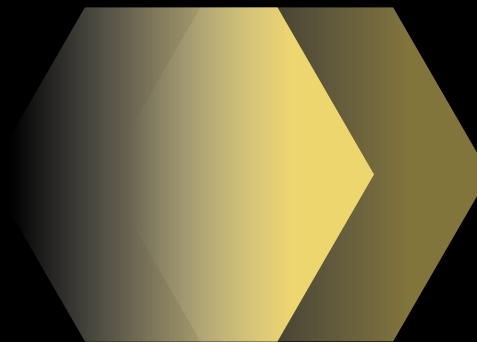

- is an international currency
- is backed by silver
- is not related to a fiat system

AFD

- is worldwide
- gold asset-backed
- currency on
- The Land & Soil
- by the unincorporated Federation Treasury of The United States of America

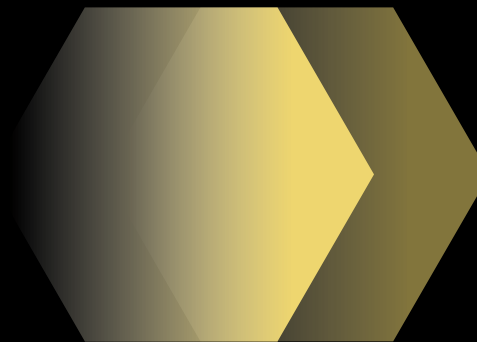

The Global Safety Vault

converts your
FRNs to AFD!

This is recorded

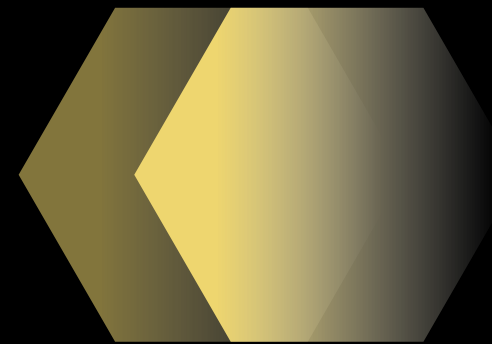

in your Prepaid
Prosperity
Account

will have the ability
to do currency
exchange

to USD and any
other international
currency.

The Safety Vault
currently still has

a 1:1 exchange rate
on those worthless
FRNs
