Security Tips

- Keep your online profile always updated as to facilitate contact in case we need to reach you.
- Please remember to keep your username and password securely stored. If you feel that your password might have been compromised, report it immediately to protect your account from unauthorized access. Report any unusual transaction records in your accounts. Preferably do not access your online banking through public computers.
- We will not display your personal information in emails or ask you to confirm any personal data by replying emails. Beware of email phishing scams and do not open unrequested file attachments. Install anti-virus software in your computer and keep it updated at all times.

Additional Note:

In event after account creation you have mis-placed your password and require a 'password reset', you can use the 'forgot' tab and do a reset.
